CHARLES COUNTY GOVERNMENT

Department of Fiscal & Administrative Services Deborah E. Hudson, CPA Director

December 18, 2008

To the Honorable Charles County Commissioners and the Citizens of Charles County, Maryland

The Comprehensive Annual Financial Report of Charles County, Maryland for the Fiscal Year ended June 30, 2008 is hereby submitted as mandated by both local ordinances and state statutes. These ordinances and statutes require that Charles County annually issue a report of its financial condition and that this report be audited by an independent firm of licensed Certified Public Accountants. The audited Financial Statements must be submitted to the State of Maryland by November 1st each year. Responsibility for the accuracy of the County's financial records, including all required disclosures, rests with management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner that presents fairly the financial position and results of operations of the various funds and component units of Charles County Government. All disclosures necessary to enable the reader to gain an understanding of the County's financial activities have been included.

This report consists of management's representations concerning the finances of Charles County Government. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of the County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with U.S. generally accepted accounting principles (GAAP). Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The County's financial statements have been audited by Clifton Gunderson LLP, Independent Certified Public Accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the County for the fiscal year ended June 30, 2008, are free of material misstatement. The independent audit involved

examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the County's financial statements for the fiscal year ended June 30, 2008, are fairly presented in conformity with U.S. generally accepted accounting principles (GAAP). The independent auditor's report is presented as the first component of the financial section of this report.

The County is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 (as amended in 1996) and the provisions of U.S. Office of Management and Budget (OMB) Circular A-133, Audits of States, Local Governments, and Non Profit Organizations. Information related to this single audit, including a schedule of expenditures of federal awards, the independent auditor's reports on internal controls and compliance with applicable laws and regulations, and a schedule of findings and questioned costs are included in a separately issued single audit report.

GASB requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be used in conjunction with it. The County's MD&A can be found immediately following the report of the independent auditors.

Profile of the Charles County Government

Charles County, Maryland was created in 1658 by an Order in Council. The County was named for Charles Calvert (1637-1715), 3rd Lord Baltimore. Calvert lived in Maryland from 1661 until he returned to England in 1684. He was Proprietor of the Maryland colony from 1675 to 1689, when he lost his right to govern. From 1692 until Calvert's death in 1715, Maryland was governed as a royal colony.

Form of Government. The County operated under the Commissioner form of government until March 2003 when the Code Home Rule form of government was adopted. Policy-making and certain legislative authority are vested in the Board of County Commissioners consisting of five Commissioners who are elected for four-year terms. The President of the County Commissioners, who must declare his or her candidacy at the time of filing, is elected County-wide and may reside anywhere within the County. The other four Commissioner members also run County-wide, but one must reside within each of four Commissioner districts. The President serves on a full time basis and the other Commissioners serve in a part-time capacity. The Board meets twice weekly at the Charles County Government Building in La Plata, Maryland.

Other elected officials in the County include four Resident Judges of the Circuit Court, Clerk of the Circuit Court, States Attorney, Sheriff, Register of Wills, Judges of the Orphans' Court (3), Treasurer, and members of the County Board of Education (7).

The County serves a population of approximately 143,363 and provides a full range of municipal services enacted by statute or charter. These include public safety, education, sanitation, transportation, public health, social services, recreation, public improvements, planning and zoning, and administrative services. The three incorporated municipalities within the County are La Plata, Indian Head, and Port Tobacco. These entities are independent of the County and, as such, are not included in this report.

Component Units. The County is financially accountable for a legally separate school system and a legally separate library system. Both of these entities are reported separately within the County's financial statements.

Location. Charles County, Maryland, located on the Southern Maryland Peninsula between the Patuxent River and the Potomac River, adjoins Prince George's County on the north and west and St. Mary's County to the southeast. It occupies 502 square miles, of which 458 are land and 44 are waters. The town of La Plata, the County seat, is 71 miles from Baltimore, and 32 miles from Washington, D.C. The County's executive offices are located in the County Government Building, 200 Baltimore Street, La Plata, Maryland 20646. The County's central telephone number is (301) 645-0550.

Budget. The annual budget serves as the foundation for the County's financial planning and control. The County Commissioners are required to adopt a final budget no later than the close of the prior fiscal year. The budget is prepared by fund, function and department. Department heads may make transfers up to \$7,500 within a department, with approval by the Fiscal & Administrative Services Director. Transfers between \$7,500 and \$25,000 require the approval of the County Administrator, between \$25,000 and \$45,000 require the approval of the President of the County Commissioners and transfers over \$45,000 require the approval of the full Board of Commissioners. Transfers between departments require the special approval of the County Administrator or the Board of Commissioners depending on the dollar amount. Increase or decrease to total budget is allowed only with the Board of Commissioners approval.

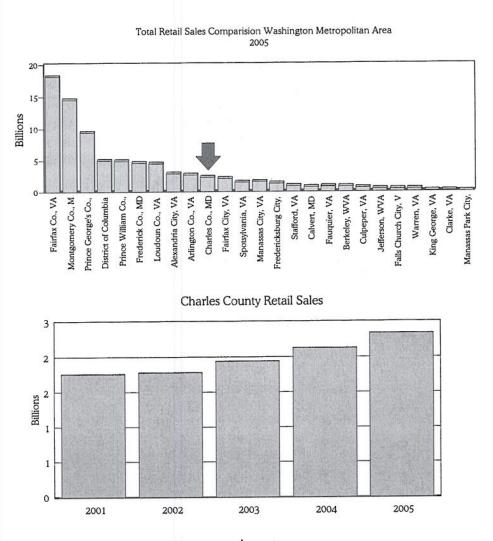

Budget-to-actual comparisons are provided in this report for the General Fund for which an appropriated annual budget is adopted. This comparison is presented on page 90 as part of the required supplementary information.

Economic Condition and Outlook

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the County operates.

Local Economy. The Southern Maryland region (consisting of Charles County, St. Mary's County and Calvert County) continues to receive attention as a result of the tremendous expansion of the Patuxent River Naval Air Base, which is now designated as the primary training center for the entire U.S. Navy. The geographic location of our County, almost evenly situated between the Pentagon and the Naval Base, makes Charles County an excellent choice for both business and residential relocation. The Naval Surface Weapons Center (NSWC), a base located within Charles County in the Town of Indian Head, is home to the largest workforce in Charles County. NSWC has continued to expand, currently this facility is the host to a multi-mission military installation. NSWC's role is contributing significantly to the growth of the County. Continued growth and economic strength have been experienced throughout the Washington, D.C. Metropolitan Area jurisdiction.

Retail sales in the Washington Metro area totaled \$81 billion in 2005. Charles County ranked tenth in the area with sales that exceeded \$2.3 billion. Charles County has ranked in the top 10 in retail sales for the region for the past 5 years. Sales have remained in excess of \$1 billion the past 6 years.

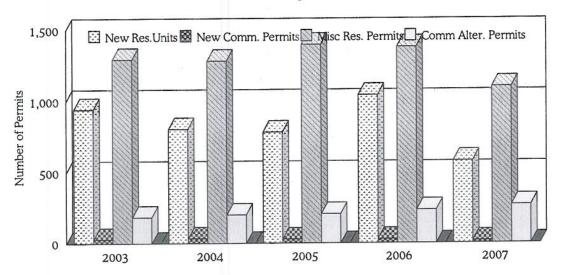

The value of building permits issued annually has generally increased each year since 1994. Industrial/commercial permits have added significantly to the overall assessable base of the County without significant demand for increased services. Charles County is one of the fastest growing counties in the State in the total value of construction permits issued.

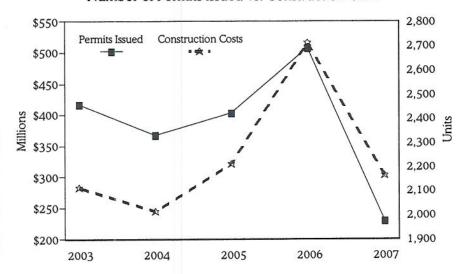

Building Permit Summary

Year	No. Of New Residential Units	No. Of New Commercial Permits	Number of Res. Misc. Permits	No. Of Comm. Alter./Add. Permits	Total Number of Permits	Total Estimated Construction Costs
2003	946	29	1,295	188	2,458	282,769,370
2004	807	37	1,283	203	2,330	243,840,425
2005	783	29	1,402	209	2,423	320,473,399
2006	1,043	32	1,381	237	2,693	515,266,408
2007	581	22	1,103	271	1,977	302,263,342

5 Year Building Permit Summary

Number of Permits issued vs. Construction Costs

As indicated in the following table, employment in the County increased from 36,987 in 2001 to 40,769 in 2005, a gain of 3,782 jobs and a 10.2% increase in total employment. Increases occurred in the Industry Sector of employment with the most pronounced increases occurring in the categories of construction, services, transportation, communications and utilities.

Five-Year Employment Statistics Persons Employed by Industry and by Employer

	2002	2003	2004	2005	2006	% Change '02 to '06
GOVERNMENT

Charles County has experienced continued increases in population each year. The Census of 1990 showed the County's population at 101,154. The 2000 Census put the County's population at 120,546. This is an increase of 19.2% from 1990. The current population for the County is estimated to be 146,363. It is expected that population growth within the County will continue at a steady but moderate rate.

Charles County's 5 Year Population Trend

Relevant Financial Policies. The County Commissioners have formalized several financial policies to address their long and short term concerns. Several of these are as follows:

- Review and approve five-year comprehensive plans for operating and capital budgets for all major funds. By establishing long range plans, the County measures the fiscal impact of today's decisions on tomorrow's outcomes.
- 2. An annual review of all programs that operate on an enterprise fund basis is prepared to ensure that the revenues for such programs continue in a self-supporting nature. By doing so, the Commissioners relieve the pressure of funding such programs on the general taxpayer. Major programs include Solid Waste, Water & Sewer, Recreation, Developer Inspection & Review, and the Golf Course Operation.
- 3. Monthly income statement reports are prepared for all major operations comparing year-to-date activity and year-end estimates with budget and prior year actual results. This review alerts the Board of County Commissioners to any financial problems that may require action, or operating surpluses that could be reinvested for program improvements.
- 4. When needed, the County will advance the State of Maryland's share for school construction to provide adequate classroom space, only when assurances are given by the State that the County will be reimbursed. All advanced projects have been reimbursed by the State.
- 5. Established a Fund Balance philosophy of:
 - a. Fund Balance is not considered to be an operating revenue source.
 - b. A contingency reserve is approved in the annual operating budget during the budget process to reduce the pressure on Fund Balance appropriations or operating budget costs for emergencies or revenue shortfalls.
 - c. Year-end outstanding purchase orders are applied against following year appropriations to reduce end of year spending activity.
 - d. It is the County's goal, through the use of conservative fiscal management practices, to maintain a Fund Balance in the General Fund at a minimum of 8% of operating revenues.

Long-term Financial Planning. The County implements five-year financial forecast models for all major funds to aid with both operating and capital budget plans. Our financial models have the ability to adjust current and future revenues to fulfill the desired service level requirements. The outcome of compiling financial plans is to determine the amount of additional debt that the County can issue over a five-year period in order to make fiscally sound management decisions as it relates to future infrastructure.

In 2008, the County issued bonds in the amount of \$67 million (\$47 million for general

application and \$20 million in taxable bonds). These funds, along with other sources, financed certain public buildings, facilities, and grounds in the County and to refund certain outstanding County bonds. Significant projects include: renovations to Board of Education facilities (\$5.7 million); school capacity related projects including the funding of a new elementary and high school, and various relocatable projects (\$9.9 million); construction and renovations of facilities at the College of Southern Maryland (\$500 thousand); improvements to other various general government facilities including a Courthouse Expansion (\$1.3 million); storm water retrofit projects(\$400 thousand); and several water and sewer projects, including a new water tower, various water main extensions, and upgrades to sewer treatment plants(\$9.1 million).

The proceeds of the Taxable Bonds in the amount of \$20,00,000 will be applied to finance the construction of the Southern Maryland Stadium and Entertainment Complex (\$17 million) and a road project for American Community Properties Trust ("ACPT") (\$3 million).

The County's debt service levels have remained well below the legal debt margin for the past five years as a direct result of the extensive financial planning that is conducted from both a capital and operating budget perspective. The Commissioner's target debt ceiling limit of 8% provides a sturdy framework from which to make long-term financial decisions.

Major Initiatives. The County's Fiscal Year 2008 budget reflects long-range goals of achieving many goals set forth to improve the overall quality of life in Charles County. The following are a few of those objectives:

Improve Economic Development

Economic development plans within the County not only offer our citizens opportunities to work close to home, but also help to create a revenue base that will allow future reduction of the tax burden on County residents. In FY06, the County merged with the Economic Development Commission to form the County Economic Development Department. This addition has created the opportunity to improve on goals that had been set in previous years and set new ones in motion.

- Institute formal periodic reporting and more frequent and thorough updates on economic development issues and proposals to the Commissioners.
- Create multi-marketing/public relations plan for use in selling Charles County and enhancing and defining the County's image.
- Aggressively pursue attracting defense and government-related agencies and contractors.

Improve Infrastructure

Through proper planning and foresight the County will continue to build upon the needs of its citizens through improvements to and the addition of needed infrastructure.

- Evaluate the feasibility and funding of a new government center, taking into account the County's twenty-five year needs.
- Continue to aggressively complete the enhanced transportation road construction Capital Improvement Projects. Develop maps that depict detailed planned roads and other infrastructure for better communication with citizens.
- Continue to pursue hiker-biker trail opportunities, purchase park property in Waldorf and Bryans Road and work toward assuring recreational opportunities and amenities are available throughout the County.

Support the Achievement of Education Benchmarks

Provide adequate financial resources and public facilities system to achieve established benchmarks and other school system academic and personal responsibility goals.

- Complete a comprehensive Capital Improvement Project outlook for new school capacity needs going into FY08-12. Examine different, more efficient ways to finance and complete new school construction.
- Examine potential prototype schools at each level for replication in Charles County. Assure that FY08 budget provides for enhanced special needs funding.

Maintain a High Level of Public Safety

Maintain lowered levels of violent crime rates, adequate response times, and security measures to keep our citizens safe.

- Explore feasibility of establishing and funding percentage/ratio of budget for the Charles County Sheriff's Office, re-examine ratio of officers to citizens and complete Detention Center renovations and fund necessary addition of correctional officers.
- Improve Health Department involvement and oversight in monitoring water quality as it relates to drinking water and recreational use of water in the County's rivers. Develop better communication with State regulatory agencies to insure that County water ways are not

being polluted.

In summary, the Fiscal Year 2008 economic outlook for the County is stable. Property tax revenues continue to increase as the tax liability continues to move towards the assessment value. The homeowner tax credit has assisted in a slower but constant growth pattern despite fluctuations in the housing market. Local income tax continues to increase along with wages and job growth. The County is also experiencing an increase in new commercial growth as the economic development sector continues to expand.

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Charles County, Maryland for its comprehensive annual financial report for the fiscal year ended June 30, 2007. This is the sixth consecutive year that the County has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principals and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this comprehensive annual financial report was made possible by the dedicated services of the staff of the Department of Fiscal Services Accounting Division. Special recognition is given to Lisa Wood, Accountant, for her coordination and management of the preparation of these statements and for the photographs used throughout, and to the Budget Division for providing much of the statistical information included. Each member of the Department of Fiscal Services, as well as members of other Departments who assisted and contributed information, has our sincere appreciation for their efforts.

The County has also received the Government Finance Officers Association (GFOA) Award for Distinguished Budget Presentation for its annual appropriated budget dated July 1, 2007 to June 30, 2008. This is the thirteenth year in a row in which the award has been received by the County. In order to qualify for the Distinguished Budget Award, the County must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications medium.

We would also like to thank the County Commissioners for their leadership and support in planning and conducting the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

Deborah E. Hudson, CPA

CHARLES COUNTY GOVERNMENT ORGANIZATIONAL CHART

Charles County Government

Our Mission

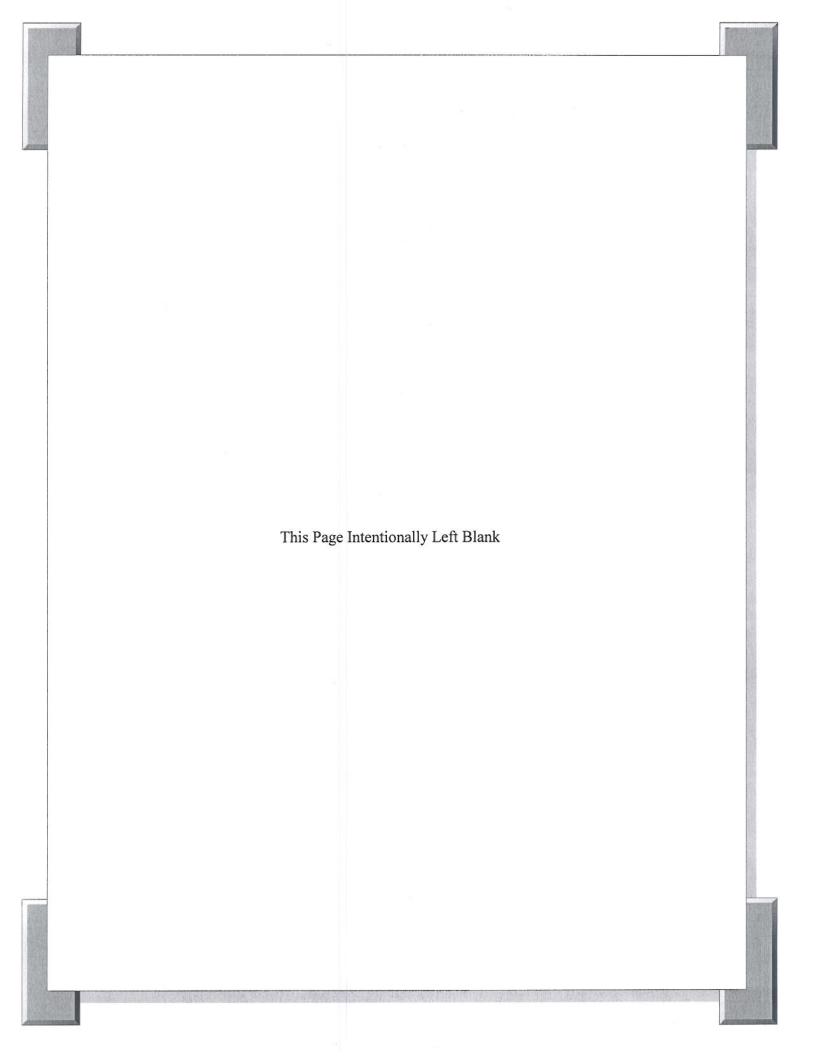

The mission of the Charles County Government is to provide our citizens the highest quality of service possible in a timely, efficient, and courteous manner. To achieve this goal, our government must be operated in an open and accessible atmosphere, be based on comprehensive long and short term planning, and have an appropriate managerial organization tempered by fiscal responsibility.

Our Vision

Charles County is a place where:

- Private initiative is rewarded and businesses grow and prosper, while the preservation of our heritage is paramount,
- Government services have reached the highest level of excellence and,
- The quality of life is felt by its citizens to be the best in the region and its government is recognized as a leader in support of these expectations.

Financial Section	

Independent Auditor's Report

The County Commissioners of Charles County La Plata, Maryland

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of The County Commissioners of Charles County (the County), as of and for the year ended June 30, 2008, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the Board of Library Trustees for Charles County, Maryland, a discretely presented component unit, which represents 0.07 percent of the assets and 0.41 percent of the revenues of the total reporting entity. Those financial statements were audited by other auditors, whose report thereon has been furnished to us, and our opinion on the financial statements, insofar as they relate to the amounts included for the Board of Library Trustees for Charles County, Maryland are based solely on the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County as of June 30, 2008, and the respective changes in financial position and cash flows, where applicable thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated November 28, 2008 on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Audit Standards* and should be read in conjunction with this report in considering the results of our audit.

The management's discussion and analysis and budgetary information as listed on the table of contents and the schedule of employer contributions and schedule of funding progress for the sheriff's office retirement plan and schedule of employer contributions and schedule of funding progress for the county employees retirement plan included in note 6 and schedule of funding progress and schedule of employer contributions to the OPEB plan included in note 7 are not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The other supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

lifton Gunderson LLP

Calverton, Maryland November 28, 2008

Management's Discussion and Analysis

Our discussion and analysis of the financial performance of The County Commissioners of Charles County, Maryland provides an overview of the County's financial activities for the Fiscal Year ended June 30, 2008. We encourage readers to use the information presented here in conjunction with the financial statements (beginning on page 21), and the accompanying notes to those financial statements (beginning on page 38).

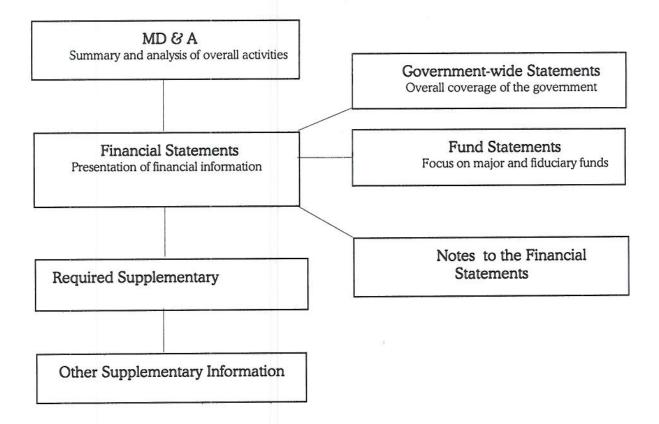

Financial Highlights

- The government-wide assets of Charles County exceeded liabilities at the close of the current fiscal vear by \$401.3 million (net assets).
- ★ The County's change in net assets was a reduction of \$37.1 million. The decrease in assets is primarily due to lower than expected income and recordation tax revenues. A slow down in the real estate market and in our overall growth rate effected both sources.
- As of the close of the current fiscal year, Charles County's governmental funds reported combined ending fund balances of \$95.7 million, a decrease of \$40.6 million from the prior year. Approximately 60% of this total amount, \$57.2 million, is available for spending at the government's discretion (unreserved fund balance).
- ★ Unreserved undesignated fund balance for the General Fund was \$38.9 million or 13% of General Fund expenditures at June 30, 2008.
- The unreserved fund balance level of 13% for the General Fund exceeds our target of 8%. The long-term fiscal plan conveys that approximately \$17 million of current and future fund balance is reinvested over the course of the next five years to fund capital projects, debt service associated with new schools, and other minor equipment and vehicle purchases. Combined with modest estimated future operating surpluses, the fiscal plan projects that fund balance will return to the 8% target by FY2012.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's financial statements. Charles County's financial statements include three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains required and other supplementary information in addition to the financial statements themselves. The diagram below illustrates how each element of the statements can be used to enhance the overall understanding of the information presented.

Financial Statement Presentation

Government-wide financial statements (Reporting on the County as a Whole)

The government-wide financial statements are designed to provide readers with a broad overview of Charles County Government's finances, in a manner similar to that of a private-sector business. The Statement of Net Assets and the Statement of Activities are prepared using the accrual basis of accounting.

The Statement of Net Assets presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Historical trending of the increases and decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The Statement of Activities presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, public safety, education, highway and street maintenance, health, parks, and recreation. The business-type activities of the County include water and sewer services, solid waste management, environmental services (recycling) programs, golf course operation, recreation programs, vending, and development

services (plan review and inspection).

The government-wide financial statements include not only the operations of Charles County Government itself (known as the primary government), but also the legally separate organizations of the Board of Education of Charles County, Maryland, and the Board of Library Trustees for Charles County, Maryland (component units). The financial information for these component units is reported separately from the financial information presented for the primary government. The government-wide financial statements can be found on pages 17-19 of this report.

Fund financial statements (Reporting on the County's Most Significant Funds)

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is more narrow than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Charles County Government maintains twenty-one individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance for the General Fund, the Capital Projects Fund, and the Debt Service Fund, which are considered to be major funds. Data from the other eighteen governmental funds are combined into a single, aggregated presentation in the governmental fund financial statements. The governmental fund financial statements can be found on pages 20-23 of this report.

<u>Proprietary funds</u> - Proprietary funds include internal service funds and enterprise funds. An internal service fund is an accounting device used to accumulate and allocate costs internally among the County's various functions. Charles County does not maintain any internal service funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for its water and sewer services, solid waste management, environmental services programs, golf course operations, recreation programs, vending and development services.

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer Fund, which is considered to be a major fund of the County. The remaining six enterprise funds are combined into a single, aggregated presentation in the proprietary fund

financial statements. The proprietary fund financial statements can be found on pages 24-27 of this report.

<u>Fiduciary funds</u> - Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. Fiduciary funds include four fund types - pension trust funds, investment trust funds, private-purpose trusts, and agency funds. The County does not maintain any investment trust funds, private-purpose trusts or agency funds. The two pension trust funds maintained by the County are the Sheriff's Office Retirement Plan and the County Employees Retirement Plan. The fiduciary fund financial statements can be found on pages 28-29 of this report.

Notes to the financial statements. The notes provide additional information that is essential to developing a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 36-84 of this report.

Required supplementary information. In addition to the financial statements and accompanying notes, this report presents certain required supplementary information that is not considered a part of the financial statements. Included in this section is a budgetary comparison for the General Fund, which demonstrates compliance with the annually adopted budget. This information can be found on page 87 of this report.

Other supplementary information. Other supplementary information includes the Combining Balance Sheet and the Combining Statement of Revenues, Expenditures and Changes in Fund Balance for other nonmajor governmental funds. Also presented here are the Combining Statement of Net Assets, the Combining Statement of Revenues, Expenses and Changes in Net Assets, and the Combining Statement of Cash Flows for the other nonmajor proprietary funds. These reports can be found on pages 90-105 of this report.

Government-wide Financial Analysis

As noted earlier, trend analysis of net assets may serve as a useful indicator of a government's financial position. In Charles County, assets exceeded liabilities by \$401.3 million at the close of the most recent fiscal year, as shown in the summary schedule of net assets below.

By far the largest portion of Charles County's net assets, \$355.4 million (88%), reflects its investment in capital assets (e.g., land, buildings, infrastructure, machinery, and equipment), less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net assets (11%) represents resources that are subject to external restrictions on how they may be used.

Net Assets June 30, 2008 and 2007 (amounts expressed in thousands)

Overall, the financial position of Charles County remained relatively constant compared to last year. The change in net assets reflects a 2% decrease for governmental activities. Governmental expenditures exceeded revenue following a planned use of fund balance for capital projects and to supplement other tax revenue to fund school construction debt service. The business-type activities showed less than a half percent change in net assets. Both revenues and expenditures declined due to large meter replacement program in FY2007 that did not repeat in FY2008.

Governmental activities. To aid in the understanding of the Statement of Activities (pg 18), some additional explanation is given. Of particular interest is the format of this statement. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expenses)/Revenue and Changes in Net Assets. The reason for this kind of format is to highlight the relative financial burden of each of the functions on the County's taxpayers. It also identifies how much each function draws from the general revenues, or if the function is self-supporting through fees and grants. It is important to note that all taxes are classified as general revenue even if restricted for a specific purpose.

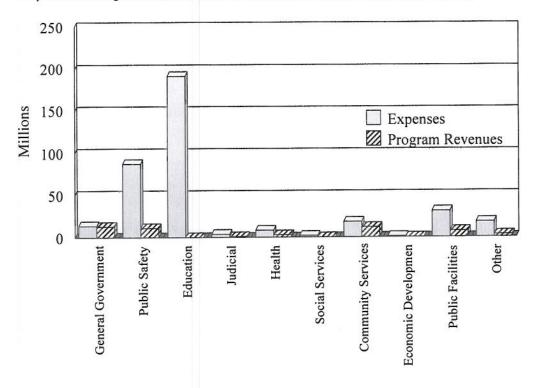

Property taxes increased by \$17 million (12%) during the year. Residential and commercial property value assessments increased by 19% compared to fiscal year 2007. The County granted property tax credits for owner occupied homes by limiting the property tax increase compared to the prior year to 7%. The tax credit known as "The Homestead Tax Credit" equaled nearly \$15 million in property tax credits to homeowners throughout Charles County. The rate limits a tax bill to an increase of no more than 7% over the prior year regardless of the growth in assessment value.

Recordation taxes, revenues received from transfer of property, decreased by 42% compared to Fiscal Year 2007. The cooling real estate market caused a revenue shortfall of \$5 million and contributed to our overall decrease in net assets as previously reported.

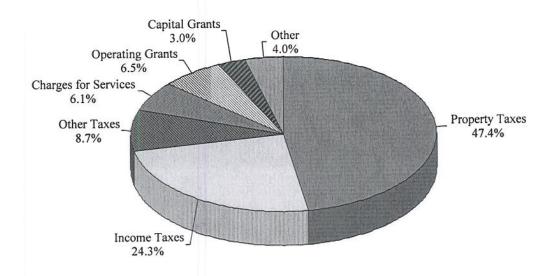

Income tax revenue had a budget shortfall of \$7 million. Although specific reasons have not been identified, the County did experience a high growth rate in deductions from adjusted gross income. Also, a mid-year legislative change by the State of Maryland, which increased personal exemptions, negatively impacted local governments' income tax revenue receipts.

Expenditures increased by \$56.7 million, a 15% increase compared to FY2007. Two of the highest priorities in the County's operating budget, Public Education and Public Safety received the largest increases of \$25.2 million and \$10.5 million, respectively. General Government increased significantly primarily due to a \$7 million expense to the debt service fund for school construction debt.

Expenses and Program Revenues - Governmental Activities (Year Ended June 30, 2008)

General Governmental Revenues by Source - Governmental Activities (Year Ended June 30, 2008)

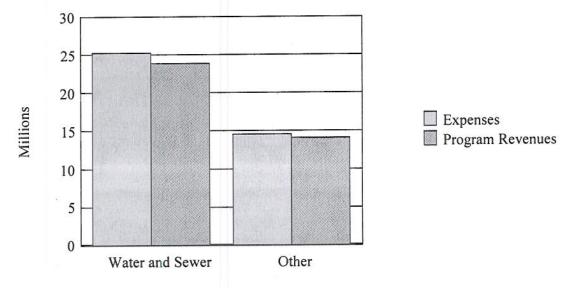

Business-type activities. The Water and Sewer Fund is considered a major fund for reporting purposes. For Fiscal Year 2008, the water user fee was increased by twenty-one cents per thousand gallons of water consumed, and the sewer user fee was increased by fifty-four cents per thousand gallons of water consumed, for a combined water and sewer user fee rate of \$7.15 per thousand gallons of water consumed. The combined rate increase was 10% and was needed to fund the increased costs for labor and other operating costs.

The County owns and operates a landfill. The primary source of revenue is derived from tipping fees. The fee of \$70 per ton for commercial and residential refuse was decreased by \$5 compared to FY2007. The fee was decreased in an effort to increase patronage at the landfill. The County recently completed its third expansion of the existing landfill site to accommodate local county waste.

In conjunction with the landfill operation, the County also operates recycling and environmental programs. The recycling operation helps keep reusable items out of the landfill, thus extending the life, which, in turn, defrays the cost of the landfill and defers the need for additional sites. The recycling and environmental programs are funded by an annual user fee of \$65 assessed on each improved property in the County, an increase of \$3 compared to fiscal year 2007. Additional revenue is generated from the sale of recyclable materials.

The Board of County Commissioners are committed to maintaining low tax rates and adjusting fees for services to preserve a self-supporting level. User fees are reviewed and changes are recommended on a regular basis during the County's budgeting process. There are many factors that affect user fee revenue, ranging from weather conditions to citizen participation. For example, unseasonably dry weather creates a greater demand for water, which in turn increases user fee revenue.

Expenses and Program Revenues - Business-type Activities (Year Ended June 30, 2008)

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$95.7 million, a decrease of \$40.6 million in comparison with the prior year. Approximately 60% of this total (\$57.2 million) constitutes unreserved fund balance, which is available for spending at the county's discretion. The remainder of the fund balance is reserved to indicate that it is not available for new spending because it has already been committed (1) to fund the purchase of capital assets (\$162,176), (2) to fund capital projects(\$28.6 million), (3) to perform services as provided by grants and contributions (\$8.2 million), and (4) for inventories (\$1.6 million).

The General Fund is the chief operating fund of the Charles County Government. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$52.3 million, while total fund balance was \$54.7 million. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 18% of the total General Fund expenditures, while total fund balance represents 19% of that same amount.

The fund balance of the County's General Fund decreased by \$18 million during the current fiscal year. Approximately \$16 million of the decrease was a planned (intentional) use of fund balance. The County invested \$7 million of the fund balance in a transfer to the Capital Project Fund to pay for various infrastructure improvements, including roads, schools, and parks. Another \$7 million was transferred to the Debt Service Fund to supplement a shortage of excise tax revenue collected to pay for the debt service associated with new school construction.

The fund balance of the County's Capital Projects Fund decreased by \$23.7 million during the current fiscal year. The decrease in fund balance is the result of expenditures exceeding revenues as prior year bond proceeds are used for current year capital project costs.

The fund balance of the County's Debt Service Fund increased by \$1.8 million during the current fiscal year. This increase is due to transfers related to the Excise Tax debt service subsidy from the General Fund and the certain timing of debt payments with the receipt of related notes receivables.

Proprietary funds. Charles County's proprietary fund statements provide the same type of information found in the government-wide financial statements, only in more detail.

Unrestricted net assets of the Water and Sewer Fund at the end of the year amounted to \$11.4 million. Unrestricted net assets of all other proprietary funds were \$7.6 million. There was a total decrease in net assets for all proprietary funds in the amount of \$474,000. Other factors concerning the finances of all these funds have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

The General Fund Operating Budget was adopted at \$302 million with budget amendments approved during the year of \$11 million that increased the budget to \$313 million. Approximately \$16 million in Fund Balance appropriations were approved to balance the FY2008 operating budget. Approximately \$14 million of the fund balance appropriations were used to fund capital projects, major capital repairs or new school construction debt service, \$1 million to fund various one-time costs such as equipment purchases, and the balance to fund various unexpected expenditures. These appropriations are consistent with the County's philosophy of reinvesting surplus for one-time costs.

Actual revenues fell short of budget by \$13 million primarily in four categories: Income Tax, Recordation Tax, Interest Income, and Highway User Tax. These four revenue sources combined to fall short of budget by nearly \$14.6 million. Property Tax revenue exceeded budget by \$1 million, and increased by 12% compared to FY2007. Recordation Tax revenue was greatly effected by the downturn in the real estate market, falling short by \$5 million. Lower interest rates and a greater use of fund balance for capital projects caused a shortfall in the Interest Income of approximately \$1 million. Higher gasoline prices resulted in lower demand causing a decrease in Highway User tax revenue of \$350,000 less than FY2007 and a budget shortfall of nearly \$1 million. The State of Maryland enacted a legislative change which resulted in lower local income tax revenue. The change was unexpected and contributed to the overall shortfall of \$7 million.

Expenditure savings of \$10 million partially offset the revenue shortfalls previously noted. A budget reduction plan was established during the year to counter the revenue shortfalls, therefore, savings were achieved throughout County government. The County also delayed a planned contribution of \$4 million to an Other Post Employment Benefit (OPEB) trust fund, presently being finalized in the current fiscal year, due to declining revenues from Recordation taxes, which was identified as the funding source for this contribution. The impact of this decision will be realized with the next actuarial valuation which can be expected to reflect a higher Net OPEB obligation.

Capital Asset and Debt Administration

Capital assets. The County's investment in capital assets for its governmental and business-type activities as of June 30, 2008, amounts to \$566.1 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, vehicles, and infrastructure. The total increase in the County's investment in capital assets for the current fiscal year was slightly over 5% (a 6% increase for governmental activities and a 4% increase for business-type activities).

Capital Assets (net of depreciation) June 30, 2008 and 2007 (amounts expressed in thousands)

		Governmental <u>Activities</u>		Business-type Activities			Total				
	2008		2007		2008		2007		2008		2007
Land (not depreciated)	\$ 45,877	\$	45,877	\$	1,983	\$	1,983	\$	47,860	\$	47,860
Construction in progress (not depreciated)	204,993		180,917		68,607		71,319		273,600		252,236
Land improvements	5,022		2,008		5,054		906		10,076		2,764
Infrastructure	93,293		96,466		82,256		75,808		175,549		172,274
Buildings and improvements	31,190		32,663		11,067		10,844		42,257		43,507
Machinery and equipment	4,783		5,289		3,404		4,076		8,187		9,365
Vehicles	7,188		6,495		1,437		1,447		8,625		7,942
Total	\$ 392,346	\$	369,715	\$	173,808	\$	166,383	\$	566,154	\$	535,948

Additional information on the County's capital assets can be found in Note 3 on pages 51-53 of this report.

Long-term debt. At the end of the current fiscal year, the County had notes and bonds outstanding of \$320 million, which are backed by the full faith and credit of the County.

Outstanding Debt General Obligation Bonds and Notes Payable June 30, 2008 and 2007 (amounts expressed in thousands)

	Governmental <u>Activities</u>			Business-type <u>Activities</u>				Total			
18	2008		2007		2008		2007		2008		2007
General obligation bonds Notes payable	\$250,842 2.146	\$	235,896 2.614	\$	53,663 13,827	\$	48,173 13,402	\$	304,505 15,973	\$	284,069 16,016
Total	\$ 252,988	\$	238,510	\$	67,490	\$	61,575	\$	320,478	\$	300,085

The County's total debt increased by \$20 million during the current fiscal year. The issuance of bonds at favorable interest rates combined with the County's strategic long term financial policy of 15-year bond terms resulting in rapid pay down of debt, has provided the County with the ability to issue new debt

without a large negative fiscal impact.

During the year, the County issued \$47 million of general obligation bonds, of which \$20 million is taxable.

The County continues to maintain an "AA" rating from Standard & Poor's, an "AA+" from Fitch Investors Service and an "Aa2" from Moody's Investors Service.

The County may issue general obligation and revenue bonds under existing authority conferred by the Maryland General Assembly. As a Code Home Rule county, the County has also enacted public local laws authorizing the issuance of general obligation bonds. The County currently has \$118,241,100 of general obligation bond authority.

State statutes limit the amount of general obligation debt a governmental entity may issue for water, sewer, and solid waste infrastructure to ten percent of its total assessed valuation. This debt is typically backed first by revenue bonds from the various enterprise funds and secondly by the full faith and credit of the County. The current debt limitation for Charles County is \$1.2 billion, which significantly exceeds the County's current outstanding general obligation debt related to revenue bonds. Additional information on the County's long-term debt can be found in Note 3 on pages 59-63 of this report.

Economic Factors and Next Year's Budgets and Rates

- ♦ Overall property tax revenue is estimated to increase by 14% due to the rise in real property value coupled with a strong growth in new construction. Also, the State allowed local county governments the option to levy taxes on power generating utilities at 65% of the full property value instead of the previous 50%. The County exercised this option for FY09 which will generate additional property tax revenue. The local tax rates remained the same.
- Income tax revenue is budgeted flat compared to FY2008 due to the revenue shortfall experienced in the current year and from the full year effect of State legislative changes related to an increase in personal exemptions from income taxes. The local tax rate remained the same.
- ★ Decrease in funding pay-as-you-go capital projects and a lower contingency budget will keep the overall General Fund appropriations to a 3.4% increase. A decrease in the use of Fund Balance of \$4 million, the loss of a State utility grant for electricity deregulation of \$2.5 million, and an adjustment to Recordation Tax revenues due to the slower real estate market moderates operating revenue to a 3.4% growth.

These factors, as well as many others, were considered in preparing the County's budget for Fiscal Year 2009.

During Fiscal Year 2008, unreserved fund balance in the General Fund decreased to \$52.4 million. The County has appropriated \$2.8 million of this amount for spending in Fiscal Year 2009.

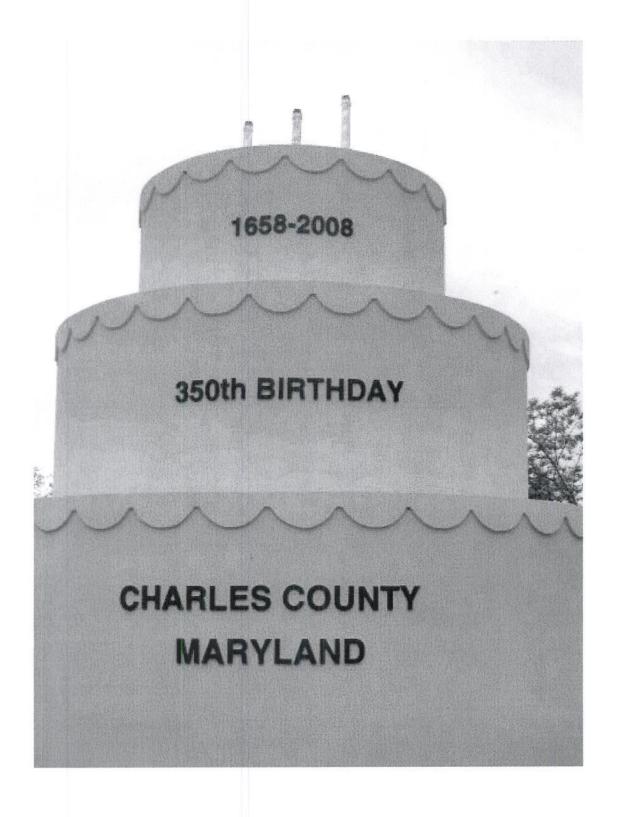

Requests for Information

This financial report is designed to provide a general overview of Charles County's finances for all those with an interest in the County's finances. Questions concerning any information provided in this report should be addressed to:

THE COUNTY COMMISSIONERS OF CHARLES COUNTY, MARYLAND RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2008

Net change in fund balance - Governmental Funds

\$ (40,584,262)

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense.

35,299,549

Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the cost of the assets disposed less accumulated depreciation.

(118,731)

Governmental funds report the issuance of debt as income and the repayment of debt as expenditures. However, in the government-wide statements, debt and repayment of debt is reported as a reduction of a long-term liability. Also, Governmental funds costs associated with the issuance of debt as revenues and expenditures. However, in the government-wide statements, these revenues and expenses are amortized in the statement of activities.

(15,544,047)

Governmental funds report revenues based on the availability of of the funds. However, in the government-wide statements revenues are recorded based on collectibility.

9,861,458

Certain expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Depreciation expense	(12,550,038)
Amortization of deferred charges	(77,776)
Compensated absences	(1,245,864)
Net pension obligation	28,749
Net OPEB obligation	(11,770,824)
Health insurance IBNR charges	74,271

Change in Net Assets of Governmental Activities

THE COUNTY COMMISSIONERS OF CHARLES COUNTY, MARYLAND NOTES TO THE FINANCIAL STATEMENTS JUNE 30, 2008

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Charles County, Maryland (the County) was created by order of council on May 10, 1658. The County operates under the Maryland Code Home Rule form of Government. Both the executive and the legislative functions of the County are vested in the elected five-member Board of Commissioners of Charles County, Maryland (County Commissioners). The County provides various services to its citizens including public safety, health and social services, parks and recreation, public transportation, public works and general administrative services. In addition, the County owns and operates a water and sewer system, a landfill and recycling center, a public golf course, and various recreational centers, including the latest addition this past fiscal year, the Southern Maryland Baseball and Entertainment Complex.

The County's financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 that do not conflict with or contradict GASB pronouncements. Although the County has the option to apply FASB pronouncements issued after that date to its business-type activities and enterprise funds, the County has chosen not to do so. The more significant accounting policies established in GAAP and used by the County are discussed below.

In June 1999, the Governmental Accounting Standards Board unanimously approved Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments (GASB 34). Some of the significant changes in the Statement include (1) the addition of a Management's Discussion and Analysis (MD&A) section providing an analysis of the County's overall financial position and results of operations; (2) the addition of financial statements prepared using full accrual accounting for all of the County's activities, including infrastructure; and (3) a change in the fund financial statements to focus on the major funds. These and other changes are reflected in the accompanying financial statements (including Notes to the Financial Statements).

A. Reporting Entity

The financial statements of the reporting entity include those of Charles County Government (the primary government) and its component units. Component units are legally separate entities that are included in the County's reporting entity because of the significance of their operating or financial relationships with the County. The criteria for including organizations as component units within the County's reporting entity, as set forth in GASB Statement 14 <u>The Financial Reporting Entity</u> and modified by GASB Statement 39 Determining Whether Certain Organizations are Component Units, include whether:

- · the organization is legally separate
- the County Commissioners appoint a voting majority of the organization's board
- the County Commissioners have the ability to impose their will on the organization
- the organization has the potential to impose a financial benefit/burden on the County
- · the organization is fiscally dependent on the County

Based on the application of these criteria, the following organizations are considered component units of Charles County Government. Their financial data is discretely presented in a separate column in the government-wide financial statements. A Combining Statement of Net Assets and a Combining Statement of Activities for the component units are also provided. All discretely presented component units have a June 30 year end.

The Board of Education of Charles County, Maryland (the Board of Education) is a legally separate organization created by Maryland state law to operate the County's public school system. Management of the County's schools is under the control of the Board of Education, with the final decision-making authority held by the State Board of Education. The members of the Board of Education are elected by the residents of Charles County. The Board of Education is financially accountable to the Charles County Government because the Board of Education's annual budget is subject to the approval of the County Commissioners. The Board of Education is presented as a governmental fund type. The County provided \$135,535,000 in operating funds and \$30,293,077 in capital funding to the Board of Education during Fiscal Year 2008.

The Board of Library Trustees for Charles County, Maryland (the Library) is a legally separate entity under Maryland state law. The Library's Trustees are appointed by the Governor of the State of Maryland and oversee the day-to-day management of the Library. The Library's budget is subject to the approval of the County Commissioners. The Library is presented as a governmental fund type. The County provided \$1,924,866 in operating funds to the Library during Fiscal Year 2008.

Complete financial statements of the discretely presented component units can be obtained directly from their respective administrative offices:

Board of Education of Charles County, Maryland 5980 Radio Station Road La Plata, MD 20646

Board of Library Trustees for Charles County, Maryland 2 Garrett Avenue La Plata, MD 20646

B. Basic Financial Statements

The County's basic financial statements include government-wide financial statements (reporting on the County as a whole), fund financial statements (reporting on the County as a whole with an emphasis on the most significant funds), and fiduciary financial statements (reporting on the County's pension funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. Governmental activities are normally supported by taxes and intergovernmental revenues. The County's public safety, public transportation, health and social services, some parks and recreation activities, public works and general administrative services are classified as governmental activities. Business-type activities rely significantly on fees and charges for support. The County's water and sewer operation, solid waste management operations, environmental services (recycling), vending commissions, white plains golf course, recreation and development services are classified as business-type activities.

Government-wide Statements

The government-wide financial statements (i.e. the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component units. The government-wide financial statements focus more on the sustainability of the County as an entity and the change in the County's net assets resulting from the current year's activities.

In the government-wide Statement of Net Assets, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column, and (b) reported using the economic resources measurement focus and the accrual basis of accounting, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net assets are reported in three parts: (1) invested in capital assets, net of related debt; (2) restricted net assets; and (3) unrestricted net assets. Net assets should be reported as restricted when constraints placed on the net asset's use are either externally imposed by

creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

The net assets restricted for other purposes result from special revenue funds and the restrictions on their net asset use. When both restricted and unrestricted resources are available for use, the County utilizes restricted resources to finance qualifying activities first, then unrestricted resources as they are needed.

The government-wide Statement of Activities reports both the gross and net cost of each of the County's functions and business-type activities. The functions are also supported by general government revenues (property tax, income tax, certain intergovernmental revenues, fines, permits, and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating grants and capital grants. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Program revenues must be directly associated with the function of a business-type activity. The operating grants column includes operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants. The net costs (by function or business-type activity) are normally covered by general revenues (property tax, income tax, intergovernmental revenues, interest income, etc.), which are not properly included among program revenues.

The County has an indirect cost allocation plan authorized under OMB Circular A-87, which it uses (when applicable and allowed) to charge costs to special revenue (grant) programs and proprietary funds. The federal guidelines state that indirect costs are eligible for reimbursement provided they are necessary for the efficient conduct of the grant or contract and provided specific costs identified are not restricted by federal law or regulations. As required, the County received an annual central services allocation plan and indirect cost rate proposal as prepared for the past fiscal year by Cost Plans Plus, LLC. As a result, the County uses that plan in developing cost-based fees, rates, user charges and overhead recoveries from other taxing entities, authorities and enterprise funds.

Fund Financial Statements

The financial transactions of the County are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. GASB 34 sets forth minimum criteria for the determination of major funds. The criteria used by the County is the percentage of the assets, liabilities, revenues, or expenditures/expenses of either fund category or the governmental and enterprise funds combined. Major individual governmental funds and major individual proprietary funds are reported as separate columns in the fund financial statements. Nonmajor funds by category are summarized into a single column.

Governmental Funds:

The measurement focus of the governmental fund financial statements is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon change in fund balance. The following is a description of the governmental funds of the County:

a. General Fund is the general operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is considered a major fund.

- b. Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The Special Revenue Funds of the county are non-major funds.
- c. **Debt Service Fund** is used to account for the accumulation of funds for the periodic payment of principal and interest on long-term debt. The Debt Service Fund is a major fund.
- d. Capital Projects Fund is used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). The Capital Projects Fund is a major fund.

2. Proprietary Funds:

The focus of proprietary fund measurement is based upon determination of operating income, changes in net assets, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the County:

Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges, or ©) establishes fees and charges based on a pricing policy designed to cover similar costs. Only the Water and Sewer Fund is considered a major fund and is presented separately. All other enterprise funds are non-major and their data is combined into a single aggregated presentation.

3. Fiduciary Funds:

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support County programs. The reporting focus for fiduciary funds is on net assets and changes in net assets, and accounting principles used are similar to proprietary funds.

The County's two pension trust funds account for the retirement benefits for the Charles County Maryland Sheriff's Office Retirement Plan and the Charles County Pension Plan. Since, by definition, these assets are held for the benefit of a third party (pension participants) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide statements. They are presented in the fiduciary fund financial statements.

C. Basis of Accounting and Measurement Focus

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurements made regardless of the measurement focus applied. The measurement focus identifies which transactions should be recorded.

Basis of Accounting

a. Accrual Basis - Both governmental and business-type activities are presented using the accrual basis of accounting in the government-wide financial statements and the proprietary and fiduciary fund financial statements. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are

- levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.
- b. Modified Accrual Basis The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Measurable" means knowing or able to reasonably estimate the amount. "Available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days after year end. Property taxes, income taxes, highway user taxes, excise taxes and interest associated the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County. Expenditures (including capital outlay) are recorded when the related liability is incurred. However, debt service expenditures (principal and interest), as well as expenditures related to compensated absences and claims and judgments, are recorded only when due.

Measurement Focus

In the government-wide financial statements, both governmental and business-type activities are presented using the economic resources measurement focus as defined below in item b.

In the governmental fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate:

- a. All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net assets (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net assets.

D. Financial Statement Amounts

1. Cash and Cash Equivalents:

The County has defined cash and cash equivalents to include cash on hand, petty cash, demand deposits, and short-term securities and certificates of deposit with an original maturity of three months or less at time of purchase.

2. Investments:

Investments held by the County, including the pension funds, are stated at fair value. Fair value is based on quoted market prices at year-end or best available estimate. All investments not required to be reported at fair value are stated at cost or amortized cost.

3. Receivables:

All trade, excise and property tax receivables are reported at their fair value. Estimated unbilled revenues from the Water and Sewer Fund are recognized at the end of each fiscal year on a pro-rata basis. The estimated amount is based on billings during the month following the close of the fiscal year. Taxes, special assessments, utility charges and accrued interest are deemed collectible in full. Property taxes attach as an enforceable lien when levied on July 1 of each fiscal year. The taxes are payable without interest by September 30.

All property tax revenue is recognized in compliance with NCGAI-3 (Revenue Recognition-Property Taxes), which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due, and receivable within the current period and collected no longer than 60 days after the close of the current period. Revenue relating to receivables which have not been collected within sixty days after the year-end has been reclassified from property tax revenues to deferred revenues.

4. Interfund Transactions:

The following is a description of the basic types of interfund transactions made during the year and related accounting policies:

- a. Transactions for services rendered or facilities provided these transactions are recorded as revenues in the receiving fund and expenditures in the disbursing fund.
- b. Transactions to reimburse a fund for expenditures made by it or for the benefit of another fundthese transactions are recorded as expenditures in the disbursing fund and as reductions of expenditures in the receiving fund.
- c. Transactions to shift revenues or contributions from the fund budgeted to receive them to the fund budgeted to expend them these transactions are recorded as transfers in and out.

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due (to) from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances" and are eliminated.

5. Inventories:

Inventories of the County, consisting of expendable supplies held for the County's use, are valued at the lower of cost or market using the First-In / First-Out Method. Inventories in all funds are initially recorded in the inventory account and recognized as expenditures/expenses when consumed.

6. Prepaid Items:

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements using the allocation method.

Restricted Assets:

Cash deposits held for construction escrow bonds, inmates at the Detention Center, a State's Attorney Restitution bank account, and various lease deposits held are all restricted and being held in Governmental Funds. In addition, certain debt proceeds and certain resources set aside for their repayment in the Debt Service Fund, are classified as restricted assets on the balance sheet because their use is limited and they are maintained in separate accounts. In the Solid Waste Management fund, bonds are held for commercial credit customers of the landfill operation in an interest-bearing bank account.

8. Capital Assets:

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, and similar items), are reported in applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an original, individual cost of \$5,000 or more and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Both the Board of Education and the Library (component units) define capital assets as assets having an initial individual cost of more than \$1,000 and an estimated useful life in excess of one year. For the Library, books and audio visual materials with a useful life greater than one year are capitalized and are valued and depreciated using the group method. For the primary government and component units, donated capital assets are recorded at estimated fair market value at the date of donation. Normal maintenance and repair costs that do not add to the value of the assets or materially extend assets' lives are not capitalized by the County or the component units.

Significant outlays for capital assets and improvements are capitalized as Construction in Progress while projects are being constructed. Projects are not depreciated until completed or substantially completed and available for use.

Property, plant and equipment of the primary government and the component units are depreciated using the straight line method over the following estimated useful lives:

Charles County Government	
Buildings	30 years
Improvements	10-30 years
Water and sewer systems	30-50 years
Infrastructure	10-50 years
Machinery and equipment	5-10 years
Vehicles	5 years
Computers & software	3-5 years
Other infrastructure	10-50 years
The Board of Education	
Buildings and improvements	30 years
Land improvements	10 years
Furniture and equipment	5 - 10 years
The Library	
Leasehold improvements	15 - 39 years
Furniture and equipment	7 years
Vehicles	5 years
Computer equipment	5 years
Books and audio visual materials	3 years

9. Net Assets / Fund Equity:

In the government-wide financial statements, equity is classified as net assets and is displayed in three components:

a. Invested in capital assets, net of related debt - consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

- b. Restricted net assets consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets all other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

In the fund financial statements, equity is classified as fund balance for governmental funds. Further classifications are as follows:

- a. Reserved fund balance this represents amounts that have been legally restricted by outside parties for specific purposes and are not available for appropriation.
- b. Unreserved fund balance represents amounts available for budgeting future operations.
 - Designated fund balance represents tentative management plans for utilizing resources in the subsequent year's budget for financing specific activities and to fund deficits in other funds. These designations are subject to change.
 - 2. Undesignated fund balance represents the remaining fund balance that is available for use.

Equity in the proprietary fund statements is classified the same as in the government-wide statements.

10. Compensated Absences:

Employees of the County earn annual leave, compensatory time and sick leave in varying amounts. It is the County's policy to permit employees to accumulate earned but unused annual leave, compensatory time, and sick pay benefits. Upon separation of service with the County, noncritical employees are reimbursed for accumulated annual leave up to a maximum of 45 days and accumulated compensatory time up to 240 hours. Sworn Officers, Corrections Officers, and certain critical employees of the Sheriff's Office are reimbursed for accumulated annual leave up to a maximum of 720 hours. Sworn Officers can be reimbursed up to 480 hours of compensatory time. There is no liability recorded for unpaid accumulated sick leave since the County does not have a policy to pay any of these amounts when employees separate from service.

The County accrues the value of the accumulated unpaid annual leave, compensatory time and associated employee-related costs when incurred in the government-wide and proprietary fund financial statements. Only the amount of unused annual leave and compensatory pay that is expected to be liquidated with expendable available financial resources (amount estimated to be used within 60 days of year-end) is recorded as an expenditure and a liability in the governmental fund that will pay it. The noncurrent portion for governmental funds is maintained separately and represents a reconciling item between the fund and government-wide presentations.

11. Long-term Obligations:

In the government-wide financial statements and proprietary fund-types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds.

In the fund financial statements, governmental fund-types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from

the actual debt proceeds received, are reported as debt service expenditures. Capital leases are recorded in the same manner.

12. Revenues, Expenditures, and Expenses:

Property taxes and interest assessed in the current fiscal period are accrued and are recognized as revenues in the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be earned and therefore recognizable as revenue of the current period.

In the government-wide financial statements, expenses are classified by function for both governmental and business-type activities. In the fund financial statements, expenditures are classified by character.

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses result from providing services and producing goods in connection with the proprietary fund's principal operations. Operating revenues include user fees and charges. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

13. Accounting Estimates:

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgets and Budgetary Accounting

Formal budgetary accounting is employed as a management control for all funds of the County, except the two pension trust funds. However, a legal budget is adopted only for the General Fund. Thus, the budgetary financial statement included in this report as required supplementary information does not include Special Revenue Funds, Debt Service Funds, Capital Projects Fund, Proprietary Funds or Fiduciary Funds. The basis for budgeting is the modified accrual basis. All annual appropriations lapse at fiscal year-end. Project-length budgets are adopted for the Capital Projects Fund which is projected in five year increments.

The legal level of budgetary control (that is, the level at which expenditures cannot exceed budgeted appropriations) is at the program level. However, with proper approval by the County Commissioners, budget transfers can be made. The budgeted financial statements represented in this report reflect the final budget authorization, including all amendments made by the County Commissioners. There were no material violations of the annual appropriated budget for the fiscal year ended June 30, 2008.

B. Deficit Fund Equity

The Debt Service Fund had a deficit fund balance of \$569,350 as of June 30, 2008. The fund incurred a net operating loss in the current fiscal year due to the timing of the County's bond issue in March 2008, the current year's debt payment activity, and the related note repayment schedules for the Nursing Home, Hospital, and ACPT, as adjusted by any new debt issues.

The Recreation Fund had a deficit fund balance of \$927,071 as of June 30, 2008. The deficit balance resulted from the second full year costs associated with an indoor recreation complex. This operation was acquired by the County in May 2006. A contract was awarded to Rink Management Services for the operation of this facility and that commenced on July 5, 2008. In conjunction with that, the operation for the facility will be removed from the Recreation Fund and reported on it's own beginning with the financial statements ending June 30, 2009.

The Golf Course Fund had a deficit fund balance of \$6,421 as of June 30, 2008. This was the result of recording the County's OPEB liability share to the operation at year end, which was a surplus fund balance prior to this adjustment.

NOTE 3. DETAILED NOTES ON ALL FUNDS

A. Cash Deposits and Investments

Article 95, Section 22 of the Annotated Code of Maryland states that local governments are authorized to invest in the instruments specified in the State Finance and Procurement Article, Section 6-222 of the Code. In addition, Article 95, Section 22 requires that local government deposits with financial institutions be fully collateralized and that the collateral be of types specified in the State Finance and Procurement Article, Section 6-202. The County Treasurer is charged with the responsibility for selecting depositories and investing idle funds as directed by the State and County Codes. The County Treasurer is further restricted as to the types of deposits and investments in accordance with the County's investment policy. Depository institutions must be Maryland banks and must be approved for use by the County Commissioners.

Cash Deposits

At year-end, the carrying amount of the County's deposits was \$12.740,175 and the bank balances were \$13,898,473. Of the bank balance, \$480,506 was covered by Federal depository insurance and \$13,417,967 was collateralized with securities held by the pledging financial institution's trust department or agent in the County's name.

At year-end, the carrying amount of the deposits of the Board of Education, a discretely presented component unit, was \$11,295,297 and the bank balance was \$9,774,150. Of the bank balance, \$597,070 was covered by Federal depository insurance and \$9,177,080 was covered by collateral held in either the pledging bank's trust department or by the pledging bank's agent.

At year-end, the carrying amount of the deposits of the Library, a discretely presented component unit, was \$57,778 and the bank balance was \$61,861. The bank balance was covered by Federal depository insurance.

Investments

Statutes authorize the County Treasurer to invest in short-term U.S. government securities or repurchase agreements fully secured by the United States government if the funds are not needed for immediate disbursement. The stated maturities of the investments may not exceed 270 days. Statutes also authorize the Treasurer to invest in the local government investment pool established by state law. Investments are subject to approval of the County Commissioners as to the amount available for investment and the acceptable securities or financial institutions used.

At year-end, the County's cash and investment balances were as follows:

Cash on hand	\$12,414,109
U.S. government securities:	
Treasuries	14,881,192
Agencies	14,851,520
Repurchase agreements (sweep)	5,000,000
Money market	300,324
Certificates of deposit	25,000,000
Maryland local government pool	61,963,864
Total governmental cash and investments	\$ 134,411,009
Pension investments:	
Sheriff's office retirement plan	
Money market	383,305
Guaranteed investment contracts	5,434,034
Mutual funds	96,714,164
County employees retirement plan	
Money market	3,900,835
Guaranteed investment contracts	18,181,315
Mutual funds	57,856,355
Total governmental and fiduciary cash and investments	\$ 316,881,017

At year-end, the Board of Education's cash and investment balances were as follows:

Total cash and investments	\$ 43,781,332
Maryland local government pool	34,991,444
Repurchase agreements	8,500,352
Cash on hand and deposits	\$289,536

At year-end, the Library's cash and investment balances were as follows:

Total cash and investments	\$	591,527
Maryland local government pool	-	532,919
Cash on hand and deposits		\$58,608

Investments in the Maryland Local Government Investment Pool (MLGIP) are not evidenced by securities. The investment pool, not the participating governments, faces the custodial credit risk. The State Treasurer of Maryland exercises oversight responsibility over the MLGIP. A single financial institution is contracted to operate the Pool. In addition, the State Treasurer has established an advisory board composed of Pool participants to review the activities of the contractor quarterly and provide suggestions to enhance the return on investments. The MLGIP maintains an AAAm credit quality rating from Standard and Poor's. The MLGIP uses the amortized cost method to compute unit value rather than market value to report net assets. Accordingly, the fair value of the position in the MLGIP is the same as the value of the MLGIP shares.

Investments made by the County under Agencies consists of several instruments backed by either the Federal National Mortgage Association or the Federal Home Loan Mortgage Corporation organizations, and are held in a custodial account along with Treasuries. These agency investments are implicitly guaranteed by the U.S. government.

Interest Rate Risk

As a means of limiting its exposure to fair value losses stemming from rising interest rates, the County's investment policy prohibits the investment of operating funds in securities maturing more than 270 days from the date of purchase.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of failure of the counter party, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial risk if the securities are uninsured, or not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent, but not in the government's name. County and State statutes require that securities underlying all certificates of deposit, repurchase agreements and reverse repurchase agreements have a market value of at least 102 percent of the cost plus accrued interest of the investment. County policies require that a third party custodian hold investment securities and the collateral underlying all investments, in the governments' name. At June 30, 2008, the County's investments were not exposed to custodial credit.

B. Receivables

Receivables as of year-end for the County's individual major funds and nonmajor funds in the aggregate were as follows:

		General	Cap Proje		Debt Service		S	Water and Sewer Fund		major inds		Total
Receivables:												
Interest	\$	409,981	\$	0	\$	0	\$	7,273	\$	0	\$	417,254
Taxes	3	2,270,727		0	25,5	26,448		0		0	5	7,797,175
Accounts	1	1,011,639	4,907	7,991		77,443	4	324,493	3,3	55,848	2	3,677,414
Special assessments		0		0		9,648		360,547		0		370,195
Intergovernmental		341,878		0		0	5000	0	8	63,571		1,205,449
Total receivables	\$ 4	4,034,225	\$4,907	7,991	\$25,6	13,539	\$ 4	692,313	\$ 4,2	19,418	\$ 8	3,467,486

Governmental funds report unearned revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unearned revenue reported in the governmental funds were as follows:

	Ī	<u>Unearned</u>		<u>Jnavailable</u>	<u>Total</u>
Delinquent property taxes receivable (General Fund)	\$	0	\$	57,650,209	\$ 57,650,209
Agricultural preservation taxes		1,280,076		0	1,280,076
Special assessments not yet due		0		9,648	9,648
School construction impact fees		2,556,370		0	2,556,370
Grant draw-downs prior to meeting all eligibility requirements		343,411		0	343,411
Other unearned revenue		282,754		0	282,754
Loans receivable (Debt Service Fund)		0		49,615,484	49,615,484
Total unearned revenue for governmental funds	\$	4,462,611	\$	107,275,341	\$ 111,737,952

C. Property Taxes Receivable

The County levies a property tax each July 1 on the assessed value of all taxable real property located within the County on that date. Assessed values are established by the Maryland Department of Assessments and Taxation at assessed market value. A reassessment of all property is required to be completed every three years. The rates of the levy cannot exceed the constant yield tax rate furnished by the Maryland State Department of Assessments and Taxation without public notice and only after public hearings. The real

property tax rate during the year ended June 30, 2008 remained constant at \$0.962 per \$100 of assessed value. Property taxes attach as an enforceable lien on the property when levied on July 1 of each year. The taxes are payable without interest by September 30.

Revenue relating to property taxes receivable, which have not been collected within sixty days after year-end, have been reclassified from property tax revenues to deferred revenues in governmental funds.

D. Notes Receivable

During the fiscal year, the County entered into its fifth financing agreement with American Community Property Trust (ACPT) in the amount of \$3,000,000 to finance certain road, water and sewer projects within the County. The note receivable was funded through issuance of \$3,000,000 taxable general obligation bonds. Also as part of the taxable general obligation bond issue in March 2008, the County financed the one-third share of MD Baseball, LLC's obligation to the So. MD Baseball and Entertainment Complex in the grand total of \$9,248,200.

The following is a schedule of the notes receivable balances:

Loan & Year		Total Borrowed	Term & Rate	Pri	ncipal Balance 6/30/08
Nursing Home 1992	\$	2,300,000	15 years, 5%-8.375%	\$	0
Nursing Home 1995		200,000	15 years, 5.05%-7%		26,676
Nursing Home 2000		500,000	15 years, 3.13%		225,000
Nursing Home 2001		250,000	15 years, 2.55%		133,333
Nursing Home 2002		100,000	15 years, 2.83%		60,000
Nursing Home 2003		150,000	15 years, 3.28%		97,500
Nursing Home 2005		100,000	15 years, 2.67%		77,777
Nursing Home 2006		400,000	15 years, 2.24%		337,778
Subtotal: Nursing Home		4,000,000			958,064

Total notes receivable	\$	59,248,200		\$	49,615,483

A first lien security interest on all the Hospital's receipts secures their loan. A first lien security interest on the Nursing Home building and facilities secures the Nursing Home loans. ACPT's loan is collateralized by one letter of credit held by Citibank, N.A. and three others held by Deutsche Bank. These restricted assets are recorded in the Debt Service Fund. Principal and interest payments on the related bonds from these restricted resources are also accounted for in the same fund.

The future minimum note payments receivable for the year ended June 30, 2008 are as follows:

Total depreciation expense - Business-type Activities	\$ 6,725,228

Construction Commitments

The County has active construction projects as of June 30, 2008. The projects include widening and reconstruction of existing streets and bridges, maintenance of existing roads, landfill expansion, construction of a baseball stadium/entertainment complex, and the improvement and expansion of existing water and sewer facilities. At year-end, the County's project commitments are as follows:

Division / Project	Spent-to-Date		Remaining ommitment
Transportation			
Road and bridge expansions	\$	94,699,486	\$ 69,161,441
Other transportation projects		3,468,077	710,932
General government			
Courthouse expansion		4,748,022	12,265,558
Baseball Stadium & Entertainment Complex		25,677,806	963,364
Buildings and improvements		17,808,072	36,747,508
Other general government projects		8,236,993	7,552,517
Water and sewer			
Expansions and improvements		42,270,573	73,798,271
Bio-nutrient removal project		26,454,388	3,107,722
Parks			
Expansions and improvements		3,359,316	12,645,694
Environmental service			
Various environmental service projects		6,774,655	6,809,345
Total	\$	233,497,388	\$ 223,762,352

Most construction projects are financed, in part or in full, by general obligation bonds. Road and bridge expansions are also financed by off-site road fees and transfers of existing resources from the General Fund. Water and sewer expansions are financed by general obligation bonds, the state, and property owners.

Discretely Presented Component Units

Capital asset activity for the Board of Education for the year ended June 30, 2008, was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance

F. Interfund Receivables, Payables, and Transfers

The General Fund is the main fund used to collect, invest, and disburse monies for governmental and proprietary funds. This creates temporary interfund balances. The composition of interfund balances as of June 30, 2008, is as follows:

Due (to) from other funds:	G	overnmental Activities	Business-type Activities		
General Fund	\$	(80,649,619)	\$	0	
Capital Projects Fund		44,207,852		0	
Debt Service Fund		(660,734)		0	
Water and Sewer Fund		0		16,897,668	
Other Nonmajor Funds		5,822,134		14,382,698	
Total	\$	(31,280,366)	\$	31,280,366	

Transfers are used to (a) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and to (b) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The following is a schedule of interfund transfers:

	Transfers In										
Transfers Out	Capital General Projects Fund Fund		Debt Service Fund	Water and Sewer Fund		Nonmajor Governmental Funds		Nonmajor Enterprise Funds		Total	
General Fund	\$	0	\$ 6,950,490	\$6,896,982	\$	33,633	\$	2,712,879	\$	50,671	\$ 16,644,655
Nonmajor Governmental Funds	200	0,002	0			0		0		0	200,002
Nonmajor Enterprise Funds	599	9,800	0			0		0		0	599,800
Total Transfers In:	\$799	9,802	\$ 6,950,490	\$6,896,982	\$	33,633	\$	2,712,879	\$	50,671	\$ 17.444,457

G. Leases

Capital Leases

The County has entered into several lease agreements as lessee for financing the acquisition of various machinery and equipment. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception dates. Information on each of the various lease agreements is as follows:

- Fiscal Year 2003 Various equipment for the General Fund, Water and Sewer Fund, Environmental Service Fund, Parks Fund, and Inspection Fund semiannual payments of \$295,345 over five years ending August 2007, including interest at a rate of 2.98%, equipment capitalized at \$2,725,000.
- Fiscal Year 2004 Various equipment for the General Fund, Water and Sewer Fund, Environmental Service Fund, Parks Fund, and Inspection Fund - semiannual payments of \$130,695 over five years ending August 2008, including interest at a rate of 2.39%, equipment capitalized at \$1,225,000.
- Fiscal Year 2004 Equipment for the Southern Maryland Criminal Justice Academy semiannual payments of \$5,475 over five years ending April 2009, including interest at rate of 2.94%, equipment capitalized at \$50,575.
- Fiscal Year 2005 Various equipment for the General Fund, Water and Sewer Fund, Environmental Service Fund, Parks Fund, and Inspection Fund - semiannual payments of \$159,787 over five years ending August 2009, including interest at a rate of 2.96%, equipment capitalized at \$1,475,000.
- Fiscal Year 2006 Various equipment for the General Fund, Water and Sewer Fund, Environmental Service Fund and I-Net Fund, - semiannual payments of \$205,840 over five years ending July 2010, including interest at a rate of 4.63%, equipment capitalized at \$1,900,000.
- Fiscal Year 2006 Equipment for Charles County Sheriff's Office semiannual payments of \$60,269 over five years ending November 2010, including interest at a rate of 3.398%, equipment capitalized at \$550,000.
- Fiscal Year 2007 Various equipment for the General Fund, Inspection Fund, Parks Fund, and Water and Sewer Fund semiannual payments of \$238,797 over five years ending August 2011, including interest at a rate of 6.10%, equipment capitalized at \$2,150,000.
- Fiscal Year 2007 Meter Replacement Lease for the Water and Sewer Fund semiannual payments starting at \$132,965 and increasing to \$569,142 over fifteen years ending February 2022, including interest at a rate of 6.47%, various components expended at \$5,862,900.
- Fiscal Year 2008 Various equipment for the General Fund, Water and Sewer Fund and Environmental Service Fund semiannual payments of \$221,025.27 over five years ending August 2012, including interest at a rate of 3.72%, equipment capitalized at \$2,000,000.
- Fiscal Year 2008 Public Safety Portable Radios semiannual payments of \$98,905.39 over five years ending January 2013, including interest at a rate of 3.50%, equipment capitalized at \$900,160.00.

The assets acquired through capital leases and still in use are as follows:

		overnmental Activities	Business-type Activities			
Assets:						
Building & Improvements	\$	90,906	\$	0

H. Long-Term Debt

General Obligation Bonds

The County issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. The original amount of general obligation bonds issued in prior years was \$468,853,000. During the year ended June 30, 2008, general obligation bonds totaling \$47,000,000 were issued for consolidated public improvement, of which \$20,000,000 were taxable.

General obligation bonds are direct obligations and pledge the full faith and credit of the County. In the past these bonds have been generally issued as 15-year serial bonds with equal amounts of principal maturing each year. Over the past six years, the County has issued 10 year bonds as part of it's overall debt issuance as it pertains to the Excise Tax collections assessed annually on new homeowner's tax bills for school construction. The County's General obligation bonds currently outstanding are as follows:

Bond Description and Year	Amount Borrowed	Term and Rate	Governmental Activities Balance 6/30/2008
Consolidated Public Improvement Bonds of 1998	\$5,400,000	15 years,4.125% - 4.6%	1,994,752
Consolidated Public Improvement Bonds of 1999	\$8,000,000	15 years,3.875% - 4.4%	3,737,481
Consolidated Public Improvement Bonds of 2000	\$11,150,000	15 years,4.8% - 5.625%	3,871,554
Consolidated Public Improvement Bonds of 2001	\$11,700,000	15 years,4.125% - 4.7%	5,167,374
Consolidated Public Improvement and Refunding Bonds of 2002	\$26,860,000	15 years, 3% - 5%	8,135,473
Consolidated Public Improvement Bonds of 2003	\$22,090,000	15 years, 2% - 4%	9,418,749
Consolidated Public Improvement Bonds of 2003	\$6,910,000.00	10 years, 2% - 4%	3,680,000

MD Water Quality Revolving Loan

In Fiscal Year 2004, the County entered into an agreement with the State of Maryland to borrow up to \$14,767,900 for partial funding of the Mattawoman Waste Water Treatment Plant Bio-Nutrient Removal upgrade. During the Fiscal Year 2008, the County requested funds in the amount of \$1,206,391, which exhausted the available balance for future drawdowns. As of June 30, 2008, the County has a related debt balance of \$13,444,549.

Changes in Long-term Liabilities

Long-term liability activity for the year ended June 30, 2008 was as follows:

	Beginning Balances	Additions	Reductions	Ending Balances		 nounts Due <u>Vithin One</u> <u>Year</u>
Governmental activities:						
General obligation bonds	\$ 235,896,256	\$ 37,500,000	\$ (22,554,449)	\$	250,841,807	\$ 23,536,320
Notes payable	2,614,352	0	(468,185)		2,146,167	468,185
Capital leases	4,112,261	2,548,291	(1,481,610)		5,178,942	351,361
Net Pension Obligation	472,232	0	(28,748)		443,484	0
Net OPEB Obligation	0	11,770,824	0		11,770,824	0

	\$	258,166,916	\$	69,787,071	\$	73,709,165	\$ 19,335,170	\$ 420,998,322

Conduit Debt

Charles County Government has issued five economic development revenue bonds for the express purpose of providing capital financing for specific third parties that are not a part of the Charles County Government's financial reporting entity. These bonds neither constitute an indebtedness nor do they represent a pledge of the full faith and credit of the Charles County Government and are not reported as liabilities on the accompanying financial statements. For these five issues, the aggregate principal amount outstanding at June 30, 2008 is \$23,643,047.

Special Assessment Debt

In prior years, the County has had requested and granted various special assessments on projects petitioned by citizens. These projects are performed by the County, but the cost is fully funded by the property owners. No debt has been issued for these projects to date, rather they have been funded on a pay-go basis.

I. Restricted Assets

The details of the restricted assets are as follows:

Governmental Activities			
Cash and cash equivalents:			
Inmate account (old) Inmate account (new) SAO Restitution account	\$ 24,175 38,013

NOTE 4. RISK MANAGEMENT

Liability Insurance

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The County was unable to obtain general liability, public officials legal liability, police legal liability, business auto liability, and auto physical damage insurance from commercial insurance companies at a cost it considered to be economically justifiable. The County and other local governments throughout the State joined together to form the Local Government Insurance Trust (LGIT), a public entity risk pool. The County pays an annual premium to LGIT for its general insurance coverage. LGIT is self-sustaining through member premiums and will reinsure through commercial companies.

Self-Insured Health Care

The County is self-insured for employee health insurance through agreements with CareFirst BlueCross BlueShield, CareFirst BlueChoice, and Delta Dental. Employees contribute 30% of the estimated cost of the plan, and the County contributes 70%. Certain outside agencies and some retirees are also covered under this agreement with varying contribution levels. The health insurance agreements are claims-made policies with administrative fees paid to all carriers. The policies include stop-loss provisions for claims in excess of \$100,000 per person/per year for CareFirst. Claims in excess of this limit are covered by the insurance carrier. Delta Dental does not have a stop-loss provision. At June 30, 2008, a liability of \$870,000 (\$564,521 in governmental-type funds and \$305,479 in business-type funds) was recorded for estimated claims incurred but not yet reported (IBNR), which represents the estimated run-out claims liability should the self-insurance agreement be terminated. Historical experience and actuarial assumptions were the basis used in estimating the liabilities for unpaid claims.

The changes in the County's claims liability are as follows:

Fiscal Year	nning of Year	Claims and Changes in Estimates		Payr	nents	End of Year		
2003	\$ 700	\$	50	\$	0	\$	750	
2004	750		410		0		1,160	
2005	1,160		600		0		1,760	
2006	1,760		0		0		1,760	
2007	1,760		(800)		0		960	
2008	960		(90)		0		870	

Other Insurance

The County continues to carry commercial insurance for other risks of loss, including other general liability; earth movement; flood; employee health, dental, and life; worker's compensation, unemployment, and long-term disability insurance. Settlement claims resulting from these risks have not exceeded commercial insurance coverage in any of the past four years.

NOTE 5. COMMITMENTS AND CONTINGENCIES

A. Contingencies Under Grant Provisions

The County participates in federal- and state-assisted programs and is a recipient of several grants. These programs and grants are subject to financial and compliance audits by the grantors or their representatives. Any liability for reimbursement that may arise as a result of these audits is not believed to be material. The County has experienced audits of a few programs during the year ended June 30, 2008, which have not resulted in any findings or liabilities. The County does not expect any disallowance of grant expenditures in the future.

NOTE 6. PENSION PLANS

The County maintains two separate single-employer, defined benefit pension plans: one for Sheriff's Office and Communications employees and one for substantially all other full-time County employees. The two pension plans are maintained as Pension Trust Funds. The County does not produce separate comprehensive annual financial reports for the plans. Therefore, all required disclosures for the plans are included within this report. The following are the required statements for the County's Pension Trust Funds:

Combining Statement of Fiduciary Net Assets Pension Trust Funds June 30, 2008

A. Sheriff's Office Retirement Plan

Plan Description - The Sheriff's Office Retirement Plan (SORP) is a single-employer defined benefit pension plan. The County administers the plan in accordance with Article 25, Section 3 (g-1) of the Annotated Code of Maryland. The County Commissioners have the power and authority to establish and amend the benefit provisions of the SORP. All full-time employees classified as sworn officers, correctional officers or communications employees are eligible to participate in this plan. The plan provides retirement, disability, and death benefits to plan members and beneficiaries. Cost of living adjustments are also provided.

Membership in the plan consisted of the following at July 1, 2007, the date of the last actuarial valuation:

	Sworn Officers	Correctional Officers	Communications Employees
Active plan members	266	132	36
Retirees and beneficiaries receiving benefits	85	6	4
Disabled, receiving benefits	13	0	0
Vested termination	0	1	0
	364	139	40

Prior to July 1, 1995, the County contracted with an insurance company to provide the guaranteed payment of benefits for retirees of the SORP. Beginning July 1, 1995, the County enacted significant changes in the eligible classes of employees and in the investment policies. Currently, the insurance company has responsibility for payment of benefits only for those employees who retired before July 1, 1995. The funding of continued benefits for those pre-7/1/95 retirees comes from the County, based on quarterly calculations made by the insurance company. Assets held by the insurance company for payment of benefits total \$5,434,034 at June 30, 2008, and are classified as fixed income investments. Benefits paid by the insurance company for the year ended June 30, 2008 totaled \$1,080,932.

Summary of Significant Accounting Policies: Basis of Accounting and Valuation of Investments - The statement of plan net assets and the statement of changes in plan net assets are prepared on the accrual basis of accounting. SORP member contributions are recognized when due. The County's employer's contributions are recognized when due and a formal commitment to provide the contributions has been made. Employer-required contributions are calculated by an independent actuarial firm and are paid after formal approval by the County Commissioners. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Market quotations are used for investments traded in an active securities market, and contract values are used for unallocated insurance contracts. Investments are managed by an investment committee which includes an outside investment consultant. The plan is administered by a third-party administrator. Fund assets are held by a custodian. The County does not issue a stand-alone financial report for the Sheriff's Office Retirement Plan, nor is it included in the report of any other entity.

Contributions and Reserves - The County Commissioners have the power and authority to establish and carry out a funding policy and method consistent with the objectives of the Plan. Sworn officers are required to contribute 8% of their base earnings. Correctional officers and communications dispatchers are required to contribute 7% of their base earnings. Base earnings are the employee's earnings as of the first day of the County's fiscal year. Earnings for contribution purposes are adjusted annually, on July 1. The County makes the required employer contributions annually, as actuarially determined. Administrative costs of the Plan are financed through investment earnings and additional contributions of the employer.

Investment Concentrations - At June 30, 2008, net assets were invested in fixed income mutual funds (35%) and Equity mutual funds (65%).

Plan Provisions - The following are the plan provisions of the SORP:

Normal Retirement Age: 25 years of service, or age 60, if earlier. 20 years of service for Sworn Officers hired

before 7-1-86.

Normal Form of Benefit: Single life annuity with death benefit of undistributed employee contributions plus

accumulated interest at 3.0% compounded annually to date of retirement. Other forms

are the actuarial equivalent.

Post-Retirement Cost

of Living Increases: CPI index, but no more than 4% in a year.

Employee Contributions: 8% of base earnings for Sworn Officers. 7% of base earnings for Correctional and

Communications

Average Compensation: Three year average of base pay on July 1.

Benefit Formula: Sworn Officers - 3% for each of first 20 years and 2% thereafter, to a maximum of 80% of

average compensation.

Correctional Officers - 2.25 % per year to a maximum of 75% of average compensation. Communications Employees - 2.0% per year to a maximum of 75% of average

compensation.

Service: Up to three years of military service counts for benefit, but not eligibility. Accumulated

sick leave provides an increased benefit percentage of 1% for 500 hours and an additional

0.1% for each additional 100 hours to a maximum of 4.0%.

Early Retirement: With at least 20 years of service:

Years early	Reduction	
1	8.4%	
2	16.8%	
3	25.2%	
4	32.4%	
5	39.6%	

Termination Prior

to Retirement: Return of employee contributions with 3% interest.

Line of Duty Disability:

Total and Permanent: 66-2/3% average compensation reduced by 50% of Social Security benefits, 100% of

Worker's Compensation benefits and LTD benefits, if any.

Disability from Own

Position: A percentage of final 3 years average earnings, based on percentage disability as determined by the Disability Review Board, subject to:

a) a minimum of 15%

b) a maximum of 50%

c) offset of 50% of Social Security

d) offset of 100% of Workers Compensation

e) offset by LTD benefits, if any.

Communications Employees are not eligible for this benefit.

Non-Line of Duty Disability: 5 Years of Service is required for this benefit.

Total and Permanent: A percentage of final 3 years average earnings, based on percentage disability as

determined by the Disability Review Board, subject to:

a) a minimum of 15% b) a maximum of 40%

c) offset of 50% of Social Security

d) offset of 100% of Worker's Compensation

e) no benefit until LTD benefits, if any, expire.

Disability from Own

Position:

A percentage of final 3 years average earnings, based on percentage disability as determined by the Disability Review Board, subject to:

a) a minimum of 15% b) a maximum of 40%

c) offset of 50% of Social Security

d) offset of 100% of Worker's Compensation e) no benefit until LTD benefits, if any, expire.

Disability must be catastrophic (loss of limb, loss of hearing, blindness).

Communications Employees are not eligible for this benefit.

Pre-Retirement Spouse's

Benefit:

Line of Duty Death

Benefit:

66-2/3% of Participant's average compensation less any survivor benefits paid under

Social Security.

Non-Line of Duty

Death Benefit:

100% of the normal retirement benefit accrued to date of death, with reduction based on

spouse's age.

Other Pre-Retirement

Death Benefits:

A Beneficiary will receive employee contributions plus credited interest.

Annual Pension Cost and Net Pension Obligation - The annual pension cost for the year ended June 30, 2008 was equal to the amount of the Annual Required Contribution of \$4,955,872. There was no net pension obligation at June 30, 2008. The Annual Required Contribution for the current year was determined as part of the July 1, 2007 actuarial valuation. The actuarial assumptions and methods included:

Funding Method:

Projected unit credit with amortization of the unfunded accrued liability over a period of 20 years as level percentage of pay. Total payroll is assumed to increase 3.5% per year.

Asset Method:

Three-year averaging method. Returns on the average market value of assets above or below the assumed 8% return are gradually recognized over a three-year period.

Interest:

8% compounded annually.

Post Retirement COLA

Increases:

3% compounded annually, no limit.

Mortality:

RP-2000 Blue Collar Mortality. A five-year set-forward is used for post-disability mortality.

Salary Increases:

5.5% compounded annually.

DROP Load Factor:

Retirement liabilities were loaded to reflect Sworn Officers electing a 5-year DROP. Sample rates are:

Sheriff's hired prior to 7/1/1986

Age	Years of Service			
	25	30	35	
45	1.055	1.071	1.219	
50	1.075	1.092	1.242	
55	1.105	1.121	1.275	

Sheriff's hired after to 7/1/1986

Age	Years of Service			
	<u>25</u>	30	35	
45	1.000	1.071	1.219	
50	1.000	1.092	1.242	
55	1.000	1.121	1.275	

These factors are based on Blue Collar Male Mortality at 8%. DROP account accrues interest at 7% per year and DROP credits increase each year by the COLA.

Disability:

Sample rates are:

Age	Rate
25	0.19%
35	0.28%
45	0.98%

Rates are reduced by 50% for corrections and communications employees.

Assumed Disability Benefit:

66-2/3% of average compensation reduced by \$5,000 per year to model the offsetting benefits.

Turnover:

Sample rates for those with 0-10 years of service are:

	Sworn	Corrections and
Age	Officers	Communications
25	6.03%	15.45%
35	5.26%	13.72%
45	3.35%	10.33%

The turnover rates for those with 10-15 years of service are assumed to be 50% of those with 0-10 years of service. The rates for those with more than 15 years of service are assumed to be 10% of the base rates for the Deputy Sheriffs and 37.5% of the base rates for the Correctional Officers and Communications Employees.

Retirement:

Sheriffs hired prior to 7/1/1986

Years of Service	% Retiring	
0-19	0%	
20	50%	
21+	20%	

100% of participants are assumed to retire at age 60.

Sheriffs hired after to 7/1/1986

Years of Service	% Retiring
0-19	0%
20	10%
21-24	5%
25	50%
26-27	0%
28+	20%

100% of participants are assumed to retire at age 60.

Corrections & Communications

		Years of Service			
Age	0-19	20-24	25	26+	
40	0.00%	12.23%	50.00%	20.00%	
45	0.00%	10.33%	50.00%	20.00%	
50	0.00%	7.23%	50.00%	20.00%	
55	0.00%	2.74%	50.00%	20.00%	
60	100%	100%	100%	100%	

Sick Leave:

Unused sick leave is assumed to increase 60 hours per year.

Military Service:

Actual service.

Loading:

A 0.5% expense loading is added to liabilities and normal cost.

Other Methods and Assumptions:

Cost and assets are measured separately for each of the three employee groups. If employees transfer between groups, assets are also transferred. The allocation between each group is intended to be an approximation of the cost and assets as if each had a separate plan. However, there is only one plan and trust fund.

Transferred and purchased service are tracked for each employee. All known and confirmed service is included in the current valuation. The value of remaining employee contributions to purchase service is included in the actuarial value of assets.

The July 2007 valuation determines the cost for fiscal year 2009.

The valuation cost is also the GASB 27 pension expense. The actuary believes that there is no past or current Net Pension Obligation (NPO).

The salary provided is as of July 1, 2007. It is assumed to be the salary for the next 12 months and not part of the accrued benefit when measuring projected benefits. Projected salary is limited to the current 401(a)(17) pay cap.

The Schedule of Employer Contributions and the Schedule of Funding Progress are as follows:

SCHEDULE OF EMPLOYER CONTRIBUTIONS SHERIFF'S OFFICE RETIREMENT PLAN

B. County Employees Retirement Plan

Plan Description - The County Employees Retirement Plan (the County Plan) is a single-employer defined benefit pension plan, established in accordance with Article 25, section 3(g) of the Annotated Code of Maryland. The County Commissioners have the power and authority to establish and amend the benefit provisions of the County Plan. All full-time employees not otherwise eligible for the SORP are eligible to participate in this plan. The plan provides retirement, disability, and death benefits to plan members and

^{**}Before plan change.

beneficiaries. Cost of living adjustments are also provided.

Membership in the plan consisted of the following at July 1, 2007, the last date of the last actuarial valuation:

Active plan members	857*
Terminated, entitled to but not yet receiving benefits	90
Retirees and beneficiaries receiving benefits	142
* includes one inactive participant	1,089

Summary of Significant Accounting Policies: Basis of Accounting and Investment Valuation - The statement of plan net assets and the statement of changes in plan net assets are prepared on the accrual basis of accounting. Member contributions are recognized when due. Employer-required contributions are recognized upon formal approval by the County Commissioners. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Market quotations are used for investments traded in an active securities market, and contract values are used for unallocated insurance contracts. Investments are managed by an investment committee which includes an outside investment consultant. The plan is administered by a third-party administrator who also acts as custodian for the fund assets. The County does not issue a stand-alone financial report for the County Employees Retirement Plan, nor is it included in the report of any other entity.

Contributions and Reserves - The County Commissioners have the power and authority to establish and carry out a funding policy and method consistent with the objectives of the Plan. Active non-public safety plan members are required to contribute 4% of their base earnings to the Plan and no contributions are required after 31 years of credited service. Public safety plan members are required to contribute 7% of their base earnings. Base earnings are the employee's earnings as of the first day of the County's fiscal year. Earnings for contribution purposes are adjusted only once annually, on July 1. The County normally makes employer contributions annually as actuarially determined. For the year ended June 30, 2008, the County fully funded the ARC of \$5,527,452 to the Plan as recommended in the actuarial as of July 1, 2007. Administrative costs of the Plan are financed through investment earnings and additional contributions of the employer.

Investment Concentrations - At June 30, 2008, the County Plan's net assets were invested in the following types of investments:

Guaranteed Deposit	23%
Fixed Income - Domestic	17%
Large Cap Stock	29%
International Stock - Blend	12%
Special Equity - Real Estate Fund	5%
Mid Cap Stock	6%
Small Cap Stock	8%

Plan Provisions - The following are the plan provisions of the County Plan:

Normal Retirement Date:

For non-public safety participants; the first day of the month coinciding with or next following the later of a participant's 62nd birthday or the completion of 5 years of service; for participants in the Plan prior to July 1, 1977, there is an elective normal retirement date of age 60. For public safety participants; the first day of the month coinciding with or next following the earlier of a participant's 60th birthday or 25 hypothetical years of service.

Income Payable:

Amount described in (a) or (b) below, whichever applies:

- (a) If participant has a spouse as of his retirement date and does not elect otherwise, retirement income shall be paid on the basis of Joint and Survivor form, as stipulated by ERISA, and will be the amount determined under the benefit formula multiplied by the appropriate factor.
- (b) If participant either has no spouse as of his retirement date or elects to receive his income under the normal form, retirement income will be the amount determined under the benefit formula.

Form of Annuity:

Modified cash refund.

Cost of Living Increases:

Provides for an annual increase in the annuity benefit in proportion to the last annual increase in the Consumer Price Index. This increase shall not be in excess of 4% per year.

Earnings:

Basic compensation received from the employer excluding overtime payments, commissions, bonuses and any other additional compensation; subject to \$200,000 as indexed.

Final Earnings:

Highest average rate of earnings on any three consecutive July 1's during the last ten years before retirement date, early retirement, or termination of employment.

Benefit Formula:

Employees are entitled to an annual retirement benefit payable monthly for life, calculated as follows:

For non-public safety participants;

Final average earnings X 1.5% X credited years of service 1-5

Final average earnings X 1.75% X credited years of service 5-10 plus

Final average earnings X 2.0% X credited years of service 10-15 <u>plus</u> Final average earnings X 2.25% X credited years of service 15-20 <u>plus</u>

Final average earnings X 2.25% X credited years of service in excess of 20

To a maximum benefit of 65% of final average earnings.

For public safety participants;

Final average earnings X 2.0% X credited years of service To a maximum benefit of 75% of final average earnings.

Service:

All years of service with the County from date of employment to early retirement, termination of employment, or retirement date.

Credited Service:

All years of service with the County while making contributions to the Plan, from the date of employment to early retirement, termination of employment, or retirement date except the first year of service is excluded for participants hired prior to July 1, 1968 if contributions were not made for the first year.

Additional Credited Service:

For non-public participants; provides additional credited service due to earned but unused sick leave at the rate of 22 days of sick leave equals one month of additional credited service, provided the employee has a minimum of 5 years of service, with a maximum of 12 months additional credited service. Additional credited service for military service up to 5 years if earned during employment; if precedes employment, up to 3 years if non-military service is at least 10 years.

For public safety participants; 1% of final average earnings for the first 500 hours of unused sick leave plus .1% final average earnings for every 100 hours above 500 up to a maximum additional 4% final average earnings. Additional credited service for military service up to 3 years; if precedes employment, up to 3 years if non-military service is at least 10 years.

Participation Eligibility:

Making employee contributions to the plan.

Early Eligibility:

For non-public safety participants; ten years early with five years of service.

For public safety participants; twenty years of service.

Early Benefit Amount:

For non-public participants; normal retirement benefit accrued to early retirement, actuarially reduced for the number of months annuity commencement date precedes normal retirement date; if service is 20 years or greater, actuarial reduction is from age 60.

For public safety participants; the normal retirement benefit accrued to early retirement, actuarially reduced based on the years of service prior to normal retirement date.

Vesting Schedule:

For non-public safety participants: 25% after 2 years, 50% after 3 years, 75% after 4 years, and 100% after 5 years; normal retirement date equals 100% vesting. For employees hired on or after July 1, 1997, 100% after 5 years.

For public safety participants; 100% vesting after 20 years of service.

Vested Benefit:

Benefit accrued to date of termination adjusted by the appropriate vesting percentage.

Employee Contributions:

Amount

For non-public safety participants: 4% of earnings; no contributions after 31 years of credited service.

For public safety participants: 7% of earnings.

Interest Credited

5% per annum.

Death or Termination

Refund

Pre-retirement: Refund of employee contributions with interest to date of termination or

Post-retirement: Excess of employee contributions with interest over annuity payments

made, unless another form of benefit becomes payable to the beneficiary.

Disability:

Eligibility

For public safety participants; no eligibility requirement for line-of-duty; 5 years of service

for non-line-of-duty.

Benefit Formula

Line-of-duty: Total disability = 66 2/3% final average earnings offset by other income; partial disability = 15% - 50% of final average earnings offset by other incomes.

Non-line-of-duty: 15% - 40% of final average earnings offset by other income.

Pre-Retirement Spouse's Benefit:

For non-public safety participants;

Eligibility (A):

Active and attained age 55 and completed five years of

service; married one full year prior to death.

Benefit Formula (A): 50% of the pension benefit accrued to date of death.

After normal retirement date but before late retirement date Eligibility (B):

and no optional form of payment in effect.

Benefit Formula (B): Pension benefit accrued to date of death payable under the 100% contingent pensioner option.

For public safety participants;

Eligibility (A):

Active participant; married one full year prior to death. If no spouse available, benefit payable to dependent child.

Benefit Formula (A): On-duty death: 66 2/3% Final Average Earnings less Social

Security benefits.

Not-on-duty death: 100 % of the pension benefit accrued to

the date of death.

Eligibility (B):

After normal retirement date but before late retirement date

and no optional form of payment in effect.

Benefit Formula (B): Pension benefit accrued to date of death payable under the

100% contingent pensioner option.

Eligibility (C):

Death while receiving disability benefits.

Benefit Formula (C): 50% of disability benefit benefit payable to spouse or

dependent child under age 18.

Annual Pension Cost and Net Pension Obligation - The annual pension cost for the year ended June 30, 2008 was slightly less than the Annual Required Contribution made of \$5,527,452, as shown in the historical chart that follows. As a result, the net pension obligation at June 30, 2008 was decreased to a balance of \$586,176. The Annual Required Contribution for the current year was determined as part of the July 1, 2007 actuarial valuation. The actuarial assumptions and methods included:

Funding Method:

Frozen Entry Age Normal Actuarial Cost Method with amortization of the unfunded

accrued liability using the level percent closed method over 15 years.

Asset Method:

Five-year smoothed market effective July 1, 2000.

Investment Return:

8% compounded annually, net of investment and contract fees.

Post Retirement

COLA Increases:

3.25% compounded annually.

Inflation:

3.25%

Mortality:

The RP-2000 Mortality Table for males and the RP-2000 Mortality Table for females.

Salary Increases:

5.5% compounded annually.

Termination:

For non-public safety participants; the probabilities that participants (male and female) at the indicated ages terminate within the upcoming year are based on the Crocker T-6 mortality table (with mortality removed); sample rates are as follows:

20 7	.94
20 /	.74
25 7	.72
30 7	.40
35 6	.86
40 6	.11
45 5	.16
50 3	.62
55 1	.37
60 0	.13

For public safety participants, the probabilities that participants at the indicated ages terminate within the upcoming year are as follows:

For those with lass than 10 years of services, sample rates are:

Age	%
25	15.4
35	13.7
45	10.3
55	02.7

For those with 10 or more but less than 15 years of services, the rates are assumed to be 50% of those with less than 10 years of services. For those with 15 or more years of service, the rates are 37.5% of the rate for those with less than 10 years of service.

Retirement Age:

For non-public safety participants; the earlier of (a) age 62 with 5 years of service or (b) age 60 with 20 years of service. For participants in the Plan prior to July 1, 1977 the retirement date is assumed to be age 60.

For public safety participants, the retirement date is assumed to be the earlier of age 60 or 25 hypothetical years of service.

Additional Credited Service:

For non-public safety participants; additional credited service at assumed retirement, due to unused sick leave is eight months.

For public safety participants; we assume 1,500 hours of unused sick leave at assumed retirement. Any military services that is provided to us is reflected in calculations.

Estimated Expenses:

Annual expenses expected to be paid from plan assets are assumed to be \$35,000.

Survivor Benefits:

It is assumed that husbands are 3 years older than wives.

For non-public safety participants; 90% of the male participants and 60% of the female participants who are or will become eligible for coverage under the survivor benefit will be survived by an eligible survivor.

For public safety participants; 100% of the participants who are or will become eligible for coverage under the survivor benefit will be survived by an eligible survivor; 5% of deaths would be in line-of-duty and the remainder would be non-services related.

Disability:

The 1952 Disability Study of the Society of Actuaries, Period 2, Benefit 5 rates were used. For public safety participants; 5% of disabilities would be in the line-of-duty and the remainder would be non-service related.

C. Length of Service Award Program (LOSAP) for Volunteer Firemen and Rescue Squadmen

In accordance with Article 9, Section 130 of the Charles County Code of Public Local Laws of Maryland, a retirement program has been established for qualified active volunteer members of the Charles County volunteer fire companies and volunteer rescue squads and is administered by the Charles County Commissioners. Beginning on January 1, 1974, any person who has reached the age of sixty and who has completed a minimum of twenty-five years of certified active volunteer service with any Charles County volunteer fire company or rescue squad shall receive benefits in the amount of \$100 per month for life. An additional payment of \$4 per month shall be added for each full year of volunteer service in excess of twenty-five years. Seventy-five percent of the volunteer's benefits shall accrue to his or her surviving spouse and shall terminate upon the death or remarriage of the spouse.

The pension contributions for this plan are not actuarially determined. An actuary was not used to determine the actuarial implications of using a nonactuarial method. The plan is funded from the revenue derived from one cent of the fire and rescue tax levied by the County in accordance with Section 123 of the Article noted above. Contributions made to the program for the year ended June 30, 2008 totaled \$603,600 from the 2007/08 tax levy. The County Commissioners are not obligated to fund the plan, only to administer it. Program assets are held in trust by a custodian. Investment decisions are made by an investment firm appointed by the Board of Fire and Rescue Commissioners. Assets are currently invested in various stocks, bonds and

mutual funds. The fair value of net assets available for plan benefits at June 30, 2008 was \$10,989,466 and are not included with the County's financial statement.

NOTE 7. OTHER EMPLOYMENT BENEFITS

A. Deferred Compensation Plan

The County offers its employees three deferred compensation plans, created in accordance with Internal Revenue Code Section 457. The plans are administered by Nationwide Retirement Solutions, Inc., Hartford Life Insurance Companies, and MetLife. The plans, available to all full-time and full-time-reduced-hours employees, permit them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to these amounts, property, or rights are held in trust for the exclusive benefit of participants and their beneficiaries. Therefore, in accordance with GASB No. 32, the deferred compensation investments are not reported in the County's financial statements. The following schedule reflects the basic information regarding the County's program:

	Nationwide	Hartford	MetLife	Total
Participants	195	248	66	509
Plan Assets	\$8,586,058	\$3,764,778	\$1,838,850	\$14,189,686
Annual Employee Contribution	\$718,353	\$684,576	\$221,316	\$1,624,245

B. Other Post-Employment Benefits

Charles County provides medical, dental and vision benefits to eligible employees who retire from employment after meeting the minimum age and years of service requirements of the County Employees Retirement Plan under the following conditions:

- a) they have a minimum of 5 years of service, and
- b) they have passed their 52nd birthday, and
- c) a combination of age and years of service total a minimum of 70 years, and
- d) they have been enrolled in the Health Plan for the 3 plan years preceding retirement.

The County pays a portion of the participant's health care premium in accordance with the following schedule:

Years of Service	% Paid by County
5 years	2% per year (10% max)
Years 6-10	3% per year (max 25%)
Years 11-15	4% per year (max 45%)
Years 16-20	4.34% per year (max 66.75%)
Years 21 +	66.7%

For the year ended June 30, 2008, there were 229 former employees and family members with medical coverage, 250 with dental, and 245 with vision. For the fiscal year ended June 30, 2008, the County incurred and recorded \$1,418,755 in health care expenditures for these participants on the pay-go basis.

Annual OPEB Cost and Net OPEB Obligation

The County's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), in an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or excess)

over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the year, the amount contributed on the pay-go basis, and changes in the County's net OPEB obligation:

\$ 15,162,000
-
-
\$ 15,162,000
\$ (1,418,755)
\$ 13,743,245
<u>\$ 13,743,245</u>

The County has planned and budgeted to contribute to a trust in fiscal year 2009, but due to present budget constraints and the downturn in the economy, this has not been completed at the time of issuance of these financial statements. The schedule of funding progress as of the most recent actuarial valuation is as follows:

Schedule of Funding Progress Other Post Employment Benefits

Actuarial Valuation Date	Ac	tuarial Value of Assets (a)	Α	Liability (AAL) (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a / b)	Covered Payroll (c)	UAAL as a % of Covered Payroll ((b - a)/c)
7/1/08	\$	0.00	\$	159,294,000	\$ 159,294,000	n/a	\$ 61,311,371	259.81%

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the year ended June 30, 2008 was as follows:

Fiscal Year Ended	% of Annual				
	Annual OPEB cost	OPEB cost contributed	Net OPEB obligation		
June 30, 2008	\$ 15,162,000	9.35%	\$ 13,743,245		

Actuarial Methods and Assumptions

In the effective June 30, 2008 actuarial valuation, the projected unit credit method, with linear proration to assumed benefit commencement was used. The actuarial assumptions included a 4% investment rate of return over the long term and a 4% per year on future salary increases. The asset valuation method used was the fair value. The annual healthcare cost trend rate of 10.5% initially, reduced by decrements to an ultimate rate of 5.50% after 3 years. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2008, was 29 years.

NOTE 8. CLOSURE AND POST-CLOSURE CARE COSTS

A. Pisgah Landfill

State and federal laws and regulations required the County to place a final cover on its Pisgah landfill site when it stopped accepting waste, and to perform certain maintenance and monitoring functions at the site for thirty years after closure. The Pisgah landfill stopped accepting waste in September 1994. The majority of closure costs related to the landfill were incurred during Fiscal Year 1997. The landfill was closed

in fiscal year 2000 with a final cost of \$6,841,885. Post-closure costs for fiscal year ended June 30, 2008 were \$56,121.

B. Charles County Landfill

State and federal laws and regulations require the County to place a final cover on the County landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the County reports a portion of these closure and post-closure care costs as an operating expense in each period based on landfill capacity used as of each balance sheet date. The landfill is located on a 70 acre site, estimated to provide nearly 5.3 million cubic yards of landfill space. As of June 30, 2008, approximately 48% of this space remains available for future waste disposal. The County is developing the landfill in sections so that when one section closes another is ready to open. At the close of the fiscal year, the landfill had Phase I, IIA, and IIIA open. The \$4,717,090 reported as landfill closure and post-closure care liability at June 30, 2008, represents the cumulative amount reported to date of the estimated capacity of the sections that have been opened. The County will recognize the remaining estimated cost of closure and post-closure care as the remaining phases and capacity is filled. The actual costs may be higher due to inflation, changes in technology, or changes in regulations. The County has established a sinking fund reserve for landfill closure costs through the implementation of the user fee rates at the landfill. The County estimates the capacity of the landfill and the future date to begin closure with the assistance of computer models. Construction costs are estimated and a rate is adopted during the budget process to ensure funds are available when needed. Landfill closure costs recognized during the year amounted to \$29,802.

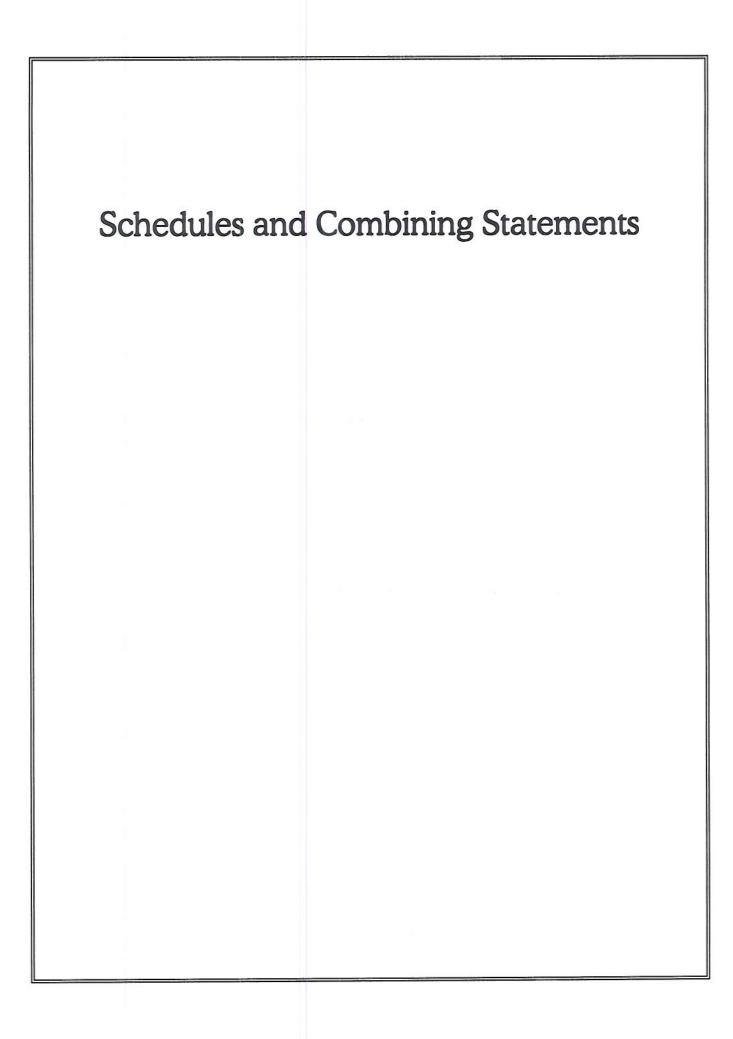

NOTE 9 PRIOR PERIOD ADJUSTMENT

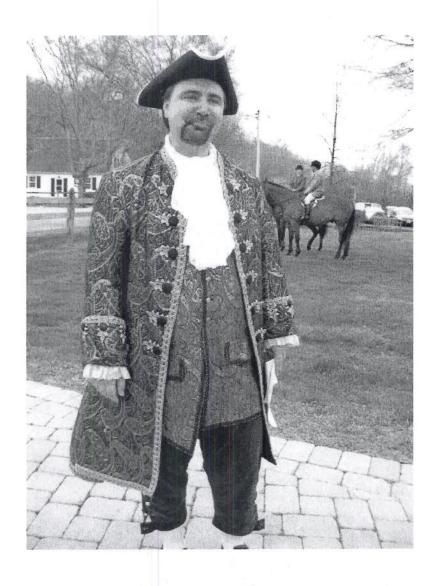

In accordance with Statement No. 33 of the Government Accounting Standards Board, the County has restated Net assets as of July 1, 2007 in the Statement of Net Assets to reflect the income tax reserve held by the State of Maryland on behalf of Charles County in the amount of \$29,665,170. This restatement does not affect the General Fund Balance as the amount is reflected as a receivable and deferred revenue on the modified accrual basis.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources other than special assessments, expendable trusts, or major capital projects that are legally restricted to expenditures for specified purposes.

Drug, Alcohol and Sheriff's Funds - Established to assist in educating and helping those within our

community fight crime.

Fire Tax Fund - Established to fund volunteer fire and rescue stations

throughout the county.

Community Development Funds - Established to fund a wide variety of programs that benefit and

improve our community infrastructure.

Housing Funds - Established to fund programs that provide low income

housing assistance.

Child Support Funds - Established to fund programs that aid in collection of child

support.

Aging Funds - Established to fund programs that provide housing assistance,

health programs and other services for the elderly.

Agricultural Fund - Established to track and fund land preservation efforts.

Planning Fund - Established to fund plans for future growth and conservation of

the county's natural resources.

Animal Shelter Fund - Established to fund the Tri-County Animal Shelter.

Human Services Fund - Established to fund programs that provide assistance to mentally

disabled individuals.

Debt Service Fund

The Debt Service Fund is established for the purpose of accumulating resources for the payment of interest and principal on long-term obligation debt other than debt payable from the Enterprise Funds.

Regency Furniture Stadium opened it's doors on May 2, 2008. It is home to the Southern Maryland Blue Crabs baseball team.

Enterprise Funds

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private enterprises where the intent of the governing body is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

Recreation Programs -

This fund is used to manage the operations of recreation

program the county.

Park Operations -

This fund is used to manage the operations of parks for county.

Environmental Service Program -

This fund is used to manage the operations of environmental

recycling services for the county.

Solid Waste Management -

This fund is used to manage the operations of Charles County

Landfill.

Borrowing under capital lease	26,369	0	26,369

The Maryland sport jousting was one of the activities at the 2008 Charles County Water Front Festival.

Statistical Section

This part of the Charles County's comprehensive annual financial report contains selected financial and socio-demographic information, generally presented on a multi-year basis to best illustrate other factors when looking at the County.

Financial Trends

Tables 1 through 4 contain trend information that may assist the reader in assessing the County's current financial performance by placing it in historical perspective.

Revenue Capacity

Tables 5 through 8 contain information that may assist the reader in assessing the viability of the County's most significant local revenue source, property taxes.

Debt Capacity

Tables 9 through 13 present information that may assist the reader in analyzing the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.

Demographic & Economic

Tables 14 and 15 offer demographic and economic indicators that may assist the reader in understanding the environment within which the County's financial activities take place.

Operating Information

Tables 16 through 18 contain service and infrastructure indicators that may assist the reader in understanding how the information in the County's financial statements relates to the services and the activities it performs.

Source:

Unless otherwise noted, the information in theses tables is derived from the annual financial reports for the relevant year. The County implemented GASB Statement No. 34 in fiscal year 2002 therefore tables presenting government-wide information includes only seven years.

In 2008 Charles County offered Historic Trolley Tours that toured various historic homes, churches and buildings.
